The Air Resources Board (ARB or Board) will conduct a public meeting at the time and place noted below to consider the proposed PM2.5 Emission Inventory State Implementation Plan (SIP) submittal for the Chico Planning Area that was developed and approved by the Butte County Air Quality Management District (Butte District). If approved, ARB will submit this submittal to the United States Environmental Protection Agency (U.S. EPA) for approval as a revision to the California SIP.

DATE: October 18, 2012

TIME: 9:00 a.m.

PLACE: California Environmental Protection Agency
Air Resources Board

This item may be considered at a two-day meeting of the Board, which will commence at 9:00 a.m., October 18, 2012, and may continue at 8:30 a.m., on October 19, 2012. This item is scheduled to be heard on the Board's Consent Calendar. All items on the Consent Calendar will be voted on by the Board immediately after the start of the public meeting. Any item may be removed from the consent calendar at the request of a Board member or if someone in the audience would like to speak on that item.

In December 2006, the United States Environmental Protection Agency (U.S. EPA) lowered the 24-hour standard for fine particulate matter (PM2.5) from 65 $\mu\text{g}/\text{m}^3$ to 35 $\mu\text{g}/\text{m}^3$. Effective December 14, 2009, the U.S. EPA designated the Chico Planning Area in the Butte District as nonattainment for this more stringent 24-hour PM2.5 standard. The federal Clean Air Act establishes planning requirements for these areas that exceed the health-based National Ambient Air Quality Standards (NAAQS). These nonattainment areas must develop and implement a SIP that demonstrates how they will attain the NAAQS by specified dates. The SIP submittal deadline for the revised 24-hour PM2.5 NAAQS is December 14, 2012.

Under the U.S. EPA's *Clean Data Policy for the Fine Particulate National Ambient Air Quality Standards* (Clean Data Policy), nonattainment areas that attain the relevant NAAQS prior to the SIP submittal deadline are eligible for reduced regulatory requirements.

Based on quality-assured federal reference method monitoring data for 2008-2010, the Chico Planning Area has demonstrated attainment of the 24-hour PM2.5 NAAQS for 2008-2010. The Chico Planning Area continues to attain based on the most recent air quality data. On June 2, 2011, ARB submitted a request to the U.S. EPA to issue a clean data finding under the Clean Data Policy, suspending the majority of the planning elements under the Clean Air Act, including the attainment demonstration, reasonable further progress demonstration, reasonably available control measures, and contingency elements of a SIP.

To address its remaining SIP requirement, Butte developed the *2012 PM2.5 Emission Inventory Submittal to the State Implementation Plan for the Chico, CA/Butte County (partial) Planning Area* (Emission Inventory SIP Submittal). The Governing Board of the Butte District adopted the Emission Inventory SIP Submittal at a public hearing on September 27, 2012.

ARB staff has reviewed the Butte District's Emission Inventory SIP submittal and has concluded that it meets the applicable Clean Air Act requirements. Staff is recommending that the Board approved the Emission Inventory SIP Submittal as a revision to the California SIP.

A written ARB Staff Report will be available at the meeting.
