The Air Resources Board (ARB or Board) will conduct a public meeting at the time and place noted below to consider the adoption of proposed regional greenhouse gas emission reduction targets for automobiles and light trucks pursuant to Senate Bill 375.

DATE: September 23, 2010

TIME: 9:00 a.m.

PLACE: California Environmental Protection Agency  
Air Resources Board  
Byron Sher Auditorium  
1001 I Street  
Sacramento, California 95814

This item may be considered at a two-day meeting of the Board, which will commence at 9:00 a.m., September 23, 2010, and may continue at 8:30 a.m., on September 24, 2010. This item may not be considered until September 24, 2010. Please consult the agenda for the meeting, which will be available at least 10 days before September 23, 2010, to determine the day on which this item will be considered.

California State law (Senate Bill 375 (SB 375), Statutes of 2008) requires ARB to set regional targets for the purpose of reducing greenhouse gas emissions from passenger vehicles, for 2020 and 2035. If regions develop integrated land use, housing and transportation plans that meet the SB 375 targets, new projects in these regions can be relieved of certain review requirements of the California Environmental Quality Act. The targets will apply to the regions in the State covered by the 18 metropolitan planning organizations.

Per SB 375, ARB must adopt final targets by September 30, 2010. ARB staff will present a written report and proposed final targets at the meeting for Board consideration. Copies of staff's written report and its associated California Environmental Quality Act (CEQA) Functional Equivalent Document may be obtained from ARB's Public Information Office, 1001 I Street, First Floor, Environmental Services Center, Sacramento, California, 95814, (916) 322-2990, beginning August 9, 2010. The report may also be obtained from ARB's website at
