Instructions for POU or COOP Allocation Distribution and Allowance Recipient Confirmation Forms

Background

The Cap-and-Trade Regulation (Regulation) specifies that each year publicly owned utilities (POUs) and electrical cooperatives (COOPs) participating in the Cap-and-Trade Program have until September 1 to inform the California Air Resources Board (CARB) how to distribute the allowances that will be allocated by CARB to them by October 24 for the following budget year.

For example, by September 1, 2022, POUs and COOPs must inform CARB of the destination accounts for the allowances allocated by October 24, 2022 from the 2023 budget year. If an entity fails to inform CARB of its distribution preference by September 1, CARB will automatically place all allocated allowances for the following budget year in the entity’s limited use holding account.

Allocated allowances may be distributed to:

1. the POU's or COOP's compliance account;
2. the POU's or COOP's limited use holding account;
3. the compliance account of an electrical generating facility operated by either (1) the POU or COOP, or (2) a joint powers authority in which the POU or COOP is a member and with which it has a power purchase agreement; or
4. the compliance account of a Federal Power Marketing Administration (FPMA) with which the POU or COOP has an agreement to purchase imported electricity or a power purchase agreement, including a custom product contract.

The Publicly Owned Utility (POU) or Electrical Cooperative (COOP) Allocation Distribution Form enables POUs and COOPs to specify the destination accounts for allowances that are allocated to them each year as part of the Cap-and-Trade Program.

The POU or COOP Allowance Recipient Confirmation Form allows an eligible generator or FPMA that expects to receive allocated allowances from a POU or a COOP to verify the number of allowances that it expects to receive each year.
