

Vintage 2013 Industrial Allowance Allocation by Sector

Background

This document provides a summary of the vintage 2013 free allowance allocation under the Cap and Trade Program aggregated by industrial sector. The methodology for allowance allocation can be found in CCR, Title 17, § 95891. Because facility-level allocation could reveal confidential business information, the following tables group allocation by North American Industry Classification System (NAICS) sectors. Sectors with fewer than five facilities were grouped together to avoid revealing confidential business information.

Detailed information regarding allocation for industrial sectors may be found at the following links:

1. Initial Statement of Reasons: Appendix J -- Allowance allocation.
