August 2019 Joint Auction #20

California Post Joint Auction Public Proceeds Report

Background

The California Air Resources Board (CARB) and Québec's ministère de l'Environnement et de la Lutte contre les changements climatiques (MELCC)¹ held a joint auction of greenhouse gas (GHG) allowances on August 20, 2019. The auction included a Current Auction of 2016, 2017, and 2019 vintage allowances and an Advance Auction of 2022 vintage allowances. CARB and MELCC approved the results of the auction and issued a Joint Auction Summary Results Report on August 27, 2019. This California Post Joint Auction Public Proceeds Report provides information regarding proceeds to the State of California from the sale of allowances in the Current Auction and Advance Auction, as described in the Joint Auction Summary Results Report. The information provided in this report provides program transparency while also maintaining the confidentiality of individual auction participants' market positions.

The Joint Auction Summary Results Report did not include the auction proceeds because of the need to complete the currency exchange required to determine final proceeds payments in a joint auction. Winning bids were submitted in one of two currencies – United States dollars (USD) or Canadian dollars (CAD). When the Financial Services Administrator distributes proceeds to the jurisdictions, California must receive auction proceeds only in USD and Québec must receive auction proceeds only in CAD. Consequently, after receiving payment from all winning bidders, and based on instructions from the jurisdictions, the Financial Services Administrator exchanged an amount of currency at prevailing market rates prior to transferring the auction proceeds to the jurisdictions. The total amount of auction proceeds received by California and Québec from the sale of state- and province-owned allowances reflects the exchange rates available prior to the time of distribution of auction proceeds, to the extent that currency had to be exchanged prior to this distribution. The average

effective exchange rate to complete the currency exchange required for final distribution of auction proceeds for this auction was 1.3278 CAD to one USD.²

As indicated in the Joint Auction Summary Results Report, and as provided for in the California Cap-and-Trade Regulation, sellers who consigned allowances in this auction are paid the auction settlement price in USD for every consigned allowance sold.

Auction proceeds resulting from the sale of California-owned allowances and consigned allowances in the August 2019 Joint Auction #20 are shown on the following page.

Table 2: Auction Data for August 2019 Joint Auction #20

Auction Data	Current Auction	Advance Auction
Settlement Price	\$17.16	\$16.85
Total Qualified Bids Divided by Total Allowances Available for Sale	1.49	1.07

Of the total current auction CA Entity Consignment allowances sold, 18,530,475 allowances were from Investor Owned Utilities (IOUs) and 3,232,002 allowances were from Publicly Owned Utilities (POUs). The remaining 60 allowances were consigned to auction from a closed CITSS account. Per the California Cap-and-Trade Regulation, sellers who consigned allowances in this auction are paid at the auction settlement price (Current Auction) for every consigned allowance sold. This resulted in proceeds to the IOUs of \$317,982,951.00 USD and proceeds to the POUs of \$55,461,154.32 USD. Québec entities do not consign any allowances.
