Potential bidders will be notified of any change to the total number of allowances offered for sale, and any change will be reflected in the Auction Platform during the bidding window of the auction.

Administrative Requirements to Participate in Auction
California covered entities, opt-in covered entities, and voluntarily associated entities are eligible to participate in the November 2012 GHG allowance auction. Prior to participating in an auction, the Primary Account Representative and Alternate Account Representative must be approved as users in the Compliance Instrument Tracking System Service (CITSS), and

the entity must have an entity account in the CITSS. Voluntary associated entities that are participating in the auction as individuals will be required to submit additional documentation to the Financial Services Administrator as contained in Appendix A of the Regulation. Additional information about administrative requirements and auction participation is provided in Attachment A of this Notice.

Procedures for Conducting the Auction
The November 2012 auction will be conducted using an electronic, internet-based Auction Platform that bidders use to submit their bid in a single-round, sealed-bid auction format. Bid quantities can only be submitted in multiples of 1,000 California GHG allowances.

Beginning with the highest bid and proceeding to successively lower bids, entities submitting bids at each price will be awarded allowances. The settlement price for all allowances will be the lowest price at which the entire supply of allowances is exhausted or the reserve price, whichever is reached first. Current and future vintage allowances will be sold in separate auctions, with the current vintage auction taking place first. Examples of how auctions are settled are provided in Attachment B of this Notice.

Form and Manner for Submitting Bids
The November 2012 auction includes the opening of the 3-hour bidding window in the Auction Platform at 10:00 AM PT and the closing of the window at 1:00 PM PT. A countdown clock in the Auction Platform will indicate the amount of time until the start of the bidding window and then the amount of time left in the bidding window. Participants will be able to submit bids manually and upload bid schedules in a pre-defined Excel template in the Auction Platform during the 3-hour bidding window.
