

## Reporting and Verification Summary of 2012 Data Greenhouse Gas

In 2013, facilities, fuel suppliers and electricity importers submitted 2012 emissions data reports as required by the Regulation for the Mandatory Reporting of Greenhouse Gas Emissions (MRR). A summary of the reports is provided below.

- For 2012 data, 713 facilities, suppliers and electricity importers were required to submit emissions data reports under MRR. 491 reports were subject to verification.
- Of the verified reports, 99 percent received a positive emissions data verification statement.
- The verification results are an indication that the reporting program is collecting accurate data from all entities subject to MRR.

The table below shows the 2012 reporting and verification summaries for greenhouse gas data reported under the MRR. Additional information about the reporting program is available here: <http://www.arb.ca.gov/cc/reporting/ghg-rep/ghg-rep.htm>.

### Reporting and Verification Results for Facilities and Entities

	2012 Data Submitted in 2013
<b>Total Number of Reports</b>	713
Reports Not Subject to Verification <sup>1</sup>	219
Number of Reports Verified	491
<b>Verified Reports</b>	491
Positive or Qualified Positive Emissions Verification Statement	490 (99%)
Adverse Emissions Verification Statement	1 (<1%)
<b>Unverified Reports</b>	3 (<1%)

<sup>1</sup> Facilities emitting <25,000 metric tons of CO<sub>2</sub>e (“abbreviated reporters”) or are electricity retail providers that are not subject to verification.
