

State of California
AIR RESOURCES BOARD
EXECUTIVE ORDER H-24-145

Relating to the Accreditation as a Lead Verifier of Greenhouse Gas Emissions Data Reports Pursuant to
Section 95132, Title 17, California Code of Regulations

Samantha Adams

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the transactions specialist exam based on the reporting requirements in sections 95111 and 95121-95123;

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the oil and gas systems specialist exam based on the reporting requirements in sections 95113-95114 and 95150-95158;

NOW, THEREFORE, IT IS ORDERED, that Samantha Adams is accredited to conduct verification services as a Lead Verifier, transactions specialist, and oil and gas systems specialist for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on April 09, 2024.

Relating to the Accreditation as a Lead Verifier of Greenhouse Gas Emissions Data Reports Pursuant to
Section 95132, Title 17, California Code of Regulations

Jeffrey D. Adkins

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the process emissions specialist exam based on the reporting requirements in sections 95110, 95116-95120, and 95124;

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the transactions specialist exam based on the reporting requirements in sections 95111 and 95121-95123;

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the oil and gas systems specialist exam based on the reporting requirements in sections 95113-95114 and 95150-95158;

NOW, THEREFORE, IT IS ORDERED, that Jeffrey D. Adkins is accredited to conduct verification services as a Lead Verifier, process emissions specialist, transactions specialist, and oil and gas systems specialist for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on March 07, 2024.

Kevin Bartelt

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

NOW, THEREFORE, IT IS ORDERED, that Kevin Bartelt is accredited to conduct verification services as a Verifier for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on March 07, 2024.

EXECUTIVE ORDER H-24-016

Relating to the Accreditation as a Lead Verifier of Greenhouse Gas Emissions Data Reports Pursuant to
Section 95132, Title 17, California Code of Regulations

Tera Bartman

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

NOW, THEREFORE, IT IS ORDERED, that Tera Bartman is accredited to conduct verification services as a Lead Verifier for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on March 07, 2024.

AIR RESOURCES BOARD
EXECUTIVE ORDER H-25-016

Relating to the Accreditation as a Lead Verifier of Greenhouse Gas Emissions Data Reports Pursuant to
Section 95132, Title 17, California Code of Regulations

Connor Carroll

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the oil and gas systems specialist exam based on the reporting requirements in sections 95113-95114 and 95150-95158;

NOW, THEREFORE, IT IS ORDERED, that Connor Carroll is accredited to conduct verification services as a Lead Verifier, and oil and gas systems specialist for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on February 10, 2025.

Eamon Cullinane

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

NOW, THEREFORE, IT IS ORDERED, that Eamon Cullinane is accredited to conduct verification services as a Lead Verifier for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on April 09, 2024.

Relating to the Accreditation as a Lead Verifier of Greenhouse Gas Emissions Data Reports Pursuant to
Section 95132, Title 17, California Code of Regulations

Phillip Cunningham

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the transactions specialist exam based on the reporting requirements in sections 95111 and 95121-95123;

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the oil and gas systems specialist exam based on the reporting requirements in sections 95113-95114 and 95150-95158;

NOW, THEREFORE, IT IS ORDERED, that Phillip Cunningham is accredited to conduct verification services as a Lead Verifier, transactions specialist, and oil and gas systems specialist for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Tan Minh Dinh

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

NOW, THEREFORE, IT IS ORDERED, that Tan Minh Dinh is accredited to conduct verification services as a Lead Verifier for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on March 05, 2026.

Relating to the Accreditation as a Lead Verifier of Greenhouse Gas Emissions Data Reports Pursuant to
Section 95132, Title 17, California Code of Regulations

Trevor A. Donaghu

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the transactions specialist exam based on the reporting requirements in sections 95111 and 95121-95123;

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the oil and gas systems specialist exam based on the reporting requirements in sections 95113-95114 and 95150-95158;

NOW, THEREFORE, IT IS ORDERED, that Trevor A. Donaghu is accredited to conduct verification services as a Lead Verifier, transactions specialist, and oil and gas systems specialist for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on March 07, 2024.

Section 95132, Title 17, California Code of Regulations

Mani Firouzian

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the process emissions specialist exam based on the reporting requirements in sections 95110, 95116-95120, and 95124;

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the transactions specialist exam based on the reporting requirements in sections 95111 and 95121-95123;

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the oil and gas systems specialist exam based on the reporting requirements in sections 95113-95114 and 95150-95158;

NOW, THEREFORE, IT IS ORDERED, that Mani Firouzian is accredited to conduct verification services as a Lead Verifier, process emissions specialist, transactions specialist, and oil and gas systems specialist for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on March 07, 2024.

Section 95132, Title 17, California Code of Regulations

Melissa Green

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

NOW, THEREFORE, IT IS ORDERED, that Melissa Green is accredited to conduct verification services as a Lead Verifier for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on December 20, 2023.

EXECUTIVE ORDER H-24-041

Relating to the Accreditation as a Lead Verifier of Greenhouse Gas Emissions Data Reports Pursuant to
Section 95132, Title 17, California Code of Regulations

James Groome

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the process emissions specialist exam based on the reporting requirements in sections 95110, 95116-95120, and 95124;

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the transactions specialist exam based on the reporting requirements in sections 95111 and 95121-95123;

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the oil and gas systems specialist exam based on the reporting requirements in sections 95113-95114 and 95150-95158;

NOW, THEREFORE, IT IS ORDERED, that James Groome is accredited to conduct verification services as a Lead Verifier, process emissions specialist, transactions specialist, and oil and gas systems specialist for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on March 07, 2024.

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the oil and gas systems specialist exam based on the reporting requirements in sections 95113-95114 and 95150-95158;

NOW, THEREFORE, IT IS ORDERED, that Matthew Henry is accredited to conduct verification services as a Lead Verifier, and oil and gas systems specialist for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on December 20, 2023.

AIR RESOURCES BOARD
EXECUTIVE ORDER H-24-049

Relating to the Accreditation as a Lead Verifier of Greenhouse Gas Emissions Data Reports Pursuant to
Section 95132, Title 17, California Code of Regulations

Ihab Issa

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

NOW, THEREFORE, IT IS ORDERED, that Ihab Issa is accredited to conduct verification services as a Lead Verifier for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on March 07, 2024.

Section 95132, Title 17, California Code of Regulations

Trevor Krasowsky

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

NOW, THEREFORE, IT IS ORDERED, that Trevor Krasowsky is accredited to conduct verification services as a Lead Verifier for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on April 09, 2024.

EXECUTIVE ORDER H-24-053

Relating to the Accreditation as a Lead Verifier of Greenhouse Gas Emissions Data Reports Pursuant to
Section 95132, Title 17, California Code of Regulations

Ashley Kreuder

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the oil and gas systems specialist exam based on the reporting requirements in sections 95113-95114 and 95150-95158;

NOW, THEREFORE, IT IS ORDERED, that Ashley Kreuder is accredited to conduct verification services as a Lead Verifier, and oil and gas systems specialist for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on March 07, 2024.

EXECUTIVE ORDER H-24-058

Relating to the Accreditation as a Lead Verifier of Greenhouse Gas Emissions Data Reports Pursuant to
Section 95132, Title 17, California Code of Regulations

Charng-Ching Lin

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

NOW, THEREFORE, IT IS ORDERED, that Charng-Ching Lin is accredited to conduct verification services as a Lead Verifier for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on March 07, 2024.

Francis J. Maher

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the transactions specialist exam based on the reporting requirements in sections 95111 and 95121-95123;

NOW, THEREFORE, IT IS ORDERED, that Francis J. Maher is accredited to conduct verification services as a Lead Verifier and transactions specialist for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on March 07, 2024.

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

NOW, THEREFORE, IT IS ORDERED, that Snigdha Mehta is accredited to conduct verification services as a Lead Verifier for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on April 09, 2024.

EXECUTIVE ORDER H-24-069

Relating to the Accreditation as a Lead Verifier of Greenhouse Gas Emissions Data Reports Pursuant to
Section 95132, Title 17, California Code of Regulations

Natasha Meskal

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the process emissions specialist exam based on the reporting requirements in sections 95110, 95116-95120, and 95124;

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the transactions specialist exam based on the reporting requirements in sections 95111 and 95121-95123;

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the oil and gas systems specialist exam based on the reporting requirements in sections 95113-95114 and 95150-95158;

NOW, THEREFORE, IT IS ORDERED, that Natasha Meskal is accredited to conduct verification services as a Lead Verifier, process emissions specialist, transactions specialist, and oil and gas systems specialist for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

EXECUTIVE ORDER H-24-126

Relating to the Accreditation as a Lead Verifier of Greenhouse Gas Emissions Data Reports Pursuant to
Section 95132, Title 17, California Code of Regulations

Subbarao Nagulapaty

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the process emissions specialist exam based on the reporting requirements in sections 95110, 95116-95120, and 95124;

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the transactions specialist exam based on the reporting requirements in sections 95111 and 95121-95123;

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the oil and gas systems specialist exam based on the reporting requirements in sections 95113-95114 and 95150-95158;

NOW, THEREFORE, IT IS ORDERED, that Subbarao Nagulapaty is accredited to conduct verification services as a Lead Verifier, process emissions specialist, transactions specialist, and oil and gas systems specialist for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on April 09, 2024.

AIR RESOURCES BOARD
EXECUTIVE ORDER H-23-053

Relating to the Accreditation as a Lead Verifier of Greenhouse Gas Emissions Data Reports Pursuant to
Section 95132, Title 17, California Code of Regulations

Jennifer Prosser

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the oil and gas systems specialist exam based on the reporting requirements in sections 95113-95114 and 95150-95158;

NOW, THEREFORE, IT IS ORDERED, that Jennifer Prosser is accredited to conduct verification services as a Lead Verifier, and oil and gas systems specialist for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on December 20, 2023.

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the process emissions specialist exam based on the reporting requirements in sections 95110, 95116-95120, and 95124;

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the transactions specialist exam based on the reporting requirements in sections 95111 and 95121-95123;

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the oil and gas systems specialist exam based on the reporting requirements in sections 95113-95114 and 95150-95158;

NOW, THEREFORE, IT IS ORDERED, that Peter Romzick is accredited to conduct verification services as a Lead Verifier, process emissions specialist, transactions specialist, and oil and gas systems specialist for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on March 07, 2024.

Michael Dale Sonke

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the process emissions specialist exam based on the reporting requirements in sections 95110, 95116-95120, and 95124;

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the transactions specialist exam based on the reporting requirements in sections 95111 and 95121-95123;

NOW, THEREFORE, IT IS ORDERED, that Michael Dale Sonke is accredited to conduct verification services as a Lead Verifier, process emissions specialist, and transactions specialist for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on March 07, 2024.

Cory Tripp

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

NOW, THEREFORE, IT IS ORDERED, that Cory Tripp is accredited to conduct verification services as a Lead Verifier for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on April 09, 2024.

EXECUTIVE ORDER H-24-199

Relating to the Accreditation as a Lead Verifier of Greenhouse Gas Emissions Data Reports Pursuant to
Section 95132, Title 17, California Code of Regulations

Kevin Tse

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

NOW, THEREFORE, IT IS ORDERED, that Kevin Tse is accredited to conduct verification services as a Lead Verifier for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on April 09, 2024.

AIR RESOURCES BOARD
EXECUTIVE ORDER H-24-103

Relating to the Accreditation as a Lead Verifier of Greenhouse Gas Emissions Data Reports Pursuant to
Section 95132, Title 17, California Code of Regulations

Nancy Wellhausen

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the process emissions specialist exam based on the reporting requirements in sections 95110, 95116-95120, and 95124;

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the oil and gas systems specialist exam based on the reporting requirements in sections 95113-95114 and 95150-95158;

NOW, THEREFORE, IT IS ORDERED, that Nancy Wellhausen is accredited to conduct verification services as a Lead Verifier, process emissions specialist, and oil and gas systems specialist for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on March 07, 2024.

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the transactions specialist exam based on the reporting requirements in sections 95111 and 95121-95123;

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the oil and gas systems specialist exam based on the reporting requirements in sections 95113-95114 and 95150-95158;

NOW, THEREFORE, IT IS ORDERED, that Wes Younger is accredited to conduct verification services as a Lead Verifier, transactions specialist, and oil and gas systems specialist for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on December 20, 2023.

EXECUTIVE ORDER H-26-028

Relating to the Accreditation as a Lead Verifier of Greenhouse Gas Emissions Data Reports Pursuant to
Section 95132, Title 17, California Code of Regulations

Zhong (John) Zhang

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the process emissions specialist exam based on the reporting requirements in sections 95110, 95116-95120, and 95124;

NOW, THEREFORE, IT IS ORDERED, that Zhong (John) Zhang is accredited to conduct verification services as a Lead Verifier and process emissions specialist for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on March 05, 2026.

AIR RESOURCES BOARD
EXECUTIVE ORDER H-24-210

Relating to the Accreditation as a Lead Verifier of Greenhouse Gas Emissions Data Reports Pursuant to
Section 95132, Title 17, California Code of Regulations

Qi Zhang

WHEREAS, the California Air Resources Board (CARB), pursuant to the California Global Warming Solutions Act of 2006 (Statutes of 2006; Chapter 488; Health and Safety Code sections 38500 et seq.), has established the mandatory reporting program contained in sections 95100-95158, title 17, California Code of Regulations, to require the use of independent verifiers for verification of greenhouse gas emissions data reports;

WHEREAS, the Executive Officer has determined that the verifier named above has met the requirements specified in sections 95130-95133, title 17, California Code of Regulations, for accreditation as a Lead Verifier, and has received a passing score on an exit examination for verifiers based on the requirements in sections 95100-95109, 95112, 95115, 95129-95133.

WHEREAS, the Executive Officer has determined that the verifier has completed verification training and has passed the oil and gas systems specialist exam based on the reporting requirements in sections 95113-95114 and 95150-95158;

NOW, THEREFORE, IT IS ORDERED, that Qi Zhang is accredited to conduct verification services as a Lead Verifier, and oil and gas systems specialist for three years from the date of execution of this order, provided that the following terms and conditions are met:

1. The verifier must cooperate fully with the Executive Officer or the authorized representative during any audit of the verifier or reporting entity for each verification performed.
2. The verifier must provide verification services as specified in sections 95130-95133, title 17, California Code of Regulations.
3. The verifier must provide and update accurate and complete conflict of interest information through the appropriate verification body as required by section 95133, title 17, California Code of Regulations.

BE IT FURTHER ORDERED, this accreditation may be modified or revoked by the Executive Officer as provided in section 95132(d), title 17, California Code of Regulations.

Executed at Sacramento, California on April 09, 2024.
