State of California  
AIR RESOURCES BOARD  

EXECUTIVE ORDER G-09-001  

Relating to a Approval of the Climate Change Scoping Plan  
to Reduce Greenhouse Gas Emissions in California  

WHEREAS, the California Environmental Quality Act (CEQA) requires that no project  
which may have significant adverse environmental impacts may be adopted as  
originally proposed if feasible alternatives or mitigation measures are available to  
reduce or eliminate such impacts, unless specific overriding considerations are  
identified which outweigh the potential adverse consequences of any unmitigated  
impacts;  

WHEREAS, CEQA allows public agencies to prepare a plan or other written documentation in  
lieu of an environmental impact report (i.e., a functional equivalent environmental document),  
once the Secretary of the Resources Agency has certified an agency’s regulatory program  
pursuant to section 21080.5 of the Public Resources Code;  

WHEREAS, pursuant to section 21080.5 of the Public Resources Code, the Secretary of the  
Resources Agency has certified that portion of ARB’s regulatory program that involves the  
adoptions, approval, amendment, or repeal of standards, rules, regulations, or plans;  

WHEREAS, Board regulations under ARB’s certified regulatory program provide that prior to  
taking final action on any proposal for which significant environmental issues have been  
raised, the decision maker shall approve a written response to each such issue;  

WHEREAS, on October 15, 2008, ARB staff prepared and circulated for public review, in  
accordance with CEQA and Board regulations, a functional equivalent environmental  
document which is set forth in Appendix J to the Proposed Climate Change Scoping Plan;  

WHEREAS, ARB conducted public hearings on October 23, 2008, November 20-21,  
2008, and December 11, 2008 to consider the Proposed Climate Change Scoping Plan  
and the functional equivalent environmental document;  

WHEREAS, following the public hearing on December 11, 2008, the Board adopted  
Resolution 08-47 (Attachment 1 to this Executive Order) in which the Board initiated  
steps toward the final adoption of the Proposed Climate Change Scoping Plan;  

WHEREAS, in Resolution 08-47 the Board designated the Executive Officer as the decision  
maker for the purpose of responding to environmental issues raised on the Proposed Climate  
Change Scoping Plan, as provided in title 17, California Code of Regulations, section 60007,  
and stated that the Board is not prejudging any of the responses that will be made by the  
Executive Officer to these environmental issues.
WHEREAS in Resolution 08-47 the Board directed the Executive Officer to prepare and approve written responses to all significant environmental issues that have been raised, and then to either: (1) return the Proposed Climate Change Scoping Plan to the Board for further consideration if he determines that this is warranted, or (2) take final action to approve the Proposed Climate Change Scoping Plan with the modifications identified at the December 11, 2008 public hearing, any conforming modifications that may be appropriate, and any modifications that are necessary to insure that all feasible measures or feasible alternatives that would substantially reduce any significant adverse environmental impacts have been incorporated into the final action.

WHEREAS, written and oral comments raising environmental issues were received during the comment period for the Proposed Climate Change Scoping Plan;

WHEREAS, pursuant to the Board’s direction in Resolution 08-47, the Executive Officer has summarized and prepared written responses to comments raising significant environmental issues associated with the Proposed Climate Change Scoping Plan; these summaries and responses to comments are set forth in Attachment 2 to this Executive Order;

WHEREAS, the Executive Officer finds that:

1. The recitals and findings contained in Resolution 08-47 are incorporated by reference herein, including the findings pursuant to CEQA that are set forth on pages 5 and 6 of Resolution 08-47;

2. As provided in section 15126.6 of the CEQA Guidelines, the mix of measures identified in the Proposed Climate Change Scoping Plan is the preferred alternative, for the reasons discussed in Appendix J to the Proposed Climate Change Scoping Plan and the responses to comments set forth in Attachment 2 to this Executive Order;

3. No additional modifications to the Proposed Climate Change Scoping Plan are necessary to insure that all feasible measures or feasible alternatives that would substantially reduce any significant adverse environmental impacts have been incorporated into the final action;

NOW, THEREFORE, IT IS ORDERED that the Executive Officer hereby approves the written responses to comments raising environmental issues associated with the Proposed Climate Change Scoping Plan, as set forth in Attachment 2 to this Executive Order.
IT IS FURTHER ORDERED that the Executive Officer hereby approves the functional equivalent environmental document prepared for the *Proposed Climate Change Scoping Plan*, as set forth in Appendix J to Plan.

IT IS FURTHER ORDERED that the *Climate Change Scoping Plan*, as modified by the Executive Officer pursuant to the Board's direction in Resolution 08-47, is hereby approved as set forth in Attachment 3 to this Executive Order.

Executed this ___ day of May, 2009, at Sacramento, California.

James N. Goldstone
Executive Officer
