ATTACHMENT 3
Executive Order DE-06-006-05

Labels for the HUSS FS-MK Filter

Notes:

- The label is metal and must be affixed to both the engine and the filter.
- The label on the engine and the filter are identical.
- CARB = Diesel Emission Control Strategy family name.
- TYPE = HUSS model number.
- No. = Filter serial number.
- YEAR = Month and year of manufacture
Notes:

- This label (example) is only for complete filter systems that have been reviewed and approved by HUSS for re-designation (removal from one engine and installation onto another engine).
- The label is metal and must be affixed to both the engine and the filter.
- The label on the engine and the filter are identical.
- CARB = Diesel Emission Control Strategy family name.
- TYPE = HUSS model number.
- No. = Filter serial number. A re-designated system keeps the original serial number with the addition of an “R” at the end.
- YEAR = Month and year of manufacture (unchanged from original label).
**Notes:**

- This label (example) is only to be used as a replacement for a label that is lost, missing or illegible. The serial number and date of manufacture are the same as on the original label.
- The label is metal and must be affixed to both the engine and the filter.
- The label on the engine and the filter are identical.
- CARB = Diesel Emission Control Strategy family name.
- TYPE = HUSS model number.
- No. = Filter serial number.
- YEAR = Month and year of manufacture.
