

**Device and Engine Label for the
ESW Technologies, ThermaCat™ System
Relating to Executive Order Series DE-09-015
Effective Date: November 2, 2012**

Figure 1. ThermaCat™ System and Engine Label

The above label is an example. Actual labels will have unique serial numbers where “XXXXX” will represent the incremental production number of each system. Below the serial number is the system identification number. Actual labels will have system identification numbers based on the diesel particulate filter (DPF) size where “XXXXX0” will be one of the approved systems listed in Table 1. The 0 at the end of the system number specifically designates the device for on-road applications only. Mfg is the system manufacture date where “MMM” will be a 3 letter representation of the month of manufacture: Jan – January, Feb – February, Mar – March, Apr – April, May – May, Jun – June, Jul – July, Aug – August, Sep – September, Oct – October, Nov – November, and Dec – December; “YYYY” will represent the 4 digit year of manufacture. “Replacement Label” will only be present in labels issued as replacements to the original label.

Table 1. On-road ThermaCat™ System Numbering

DPF size (inches)	System Number	DPF size (inches)	System Number
9 X 12	143120	11.25 X 14	145140
10.5 X 8	144080	12 X 8	146080
10.5 X 10	144100	12 X 10	146100
10.5 X 12	144120	12 X 12	146120
11.25 X 8	145080	12 X 14	146140
11.25 X 10	145100	15 X 8	147080
11.25 X 12	145120	15 X 10	147100
