Conditions for Component Swapping and Re-Designation for the Carrier Transicold CLEARSKY Diesel Particulate Filter

Relating to Executive Order Series DE-17-001
Effective Date: February 23, 2018

Component Swapping: Component swapping means the movement of a designated component of a diesel emission control strategy (DECS) between different vehicles or equipment which utilizes the same DECS.

Carrier Transicold (Carrier) does not permit component swapping for any part of the CLEARSKY Diesel Particulate Filter (CLEARSKY DPF) system.

Re-designation: Re-designation means the movement of a used verified DECS from an appropriate engine/application and installation onto another engine/application meeting the terms and conditions of the DECS Executive Order within the same common ownership fleet.

Carrier does not permit re-designation of the CLEARSKY DPF system.
