

**Conditions for Component Swapping and Re-Designation
for the Thermo King eDPF**

Relating to Executive Order Series DE-12-006

Effective Date: August 6, 2012

Page 1 of 1

Component Swapping: Component swapping means the movement of a designated component of a diesel emission control strategy (DECS) between different vehicles or equipment which utilizes the same DECS.

Thermo King does not permit component swapping for any part of the Electric-Regenerative DPF (eDPF) system.

Re-designation: Re-designation means the movement of a used verified DECS from an appropriate engine/application and installation onto another engine/application meeting the terms and conditions of the DECS Executive Order within the same common ownership fleet as defined in the *Verification Procedure, Warranty, and In-Use Compliance Requirements for In-Use Strategies to Control Emissions from Diesel Engines* in Section 2701, Title 13, *California Code of Regulations*.

Thermo King does not permit re-designation of the eDPF system.
