Re: Tier 2 Pathway Application No. B0678; Response to Don Siefkes and Laura Haider (“Commenters”).

Dear Chair Randolph:

Maas Energy Works, LLC on behalf of Merced Pipeline, LLC (“Pathway Applicant”) is responding within the scope of the Low Carbon Fuel Standard (“LCFS”) program §95488.7(d)(5)(A) to the commenter, Don Siefkes and Laura Haider, (“Commenters”), in a public comment submitted November 18, 2024, regarding the Tier 2 Pathway Application (B0678) (the “Application”).

Regulation §95488.7(d)(5)(A) states, “Only comments related to potential factual or methodological errors will require responses from the fuel pathway applicant,” We have carefully reviewed the public comments received on the Application and have determined that they do not pertain to factual or methodological errors and are irrelevant to this application.

Sincerely,

Mark Vincelli
EC Manager
Maas Energy Works, LLC
