

Low Carbon Fuel Standard Alternative Fuels Portal User Guide

Version v 3.4955

Document Released:

January 2022

Revised: March 2025

CARB's Low Carbon Fuel Standard regulation, which appears at sections 95480 to 95503 of title 17, California Code of Regulations, is designed to reduce greenhouse gas emissions associated with the life cycle of transportation fuels used in California. Unlike the regulation itself, this user guide does not have the force of law. It is not intended to and cannot establish new mandatory requirements beyond those that are already in the LCFS regulation, nor supplant, replace or amend any of the legal requirements of the regulation. Conversely, any omission or truncation of regulatory requirements does not relieve entities of their legal obligation to fully comply with all requirements of the regulation.

Disclaimer: The California Air Resources Board makes every reasonable effort to provide accurate and up-to-date information in this user guide but makes no warranties or representations as to the accuracy of the content and assumes no liability or responsibility for any error or omission. CARB reserves the right to make changes to this user guide and/or to the products described in this user guide, at any time without notice. We welcome and appreciate your feedback. Please send your comments and suggestions to the email lcfspathways@arb.ca.gov, particularly if information in this guidance appears incorrect, misleading, or incomplete.

A. What's New in v3.4955

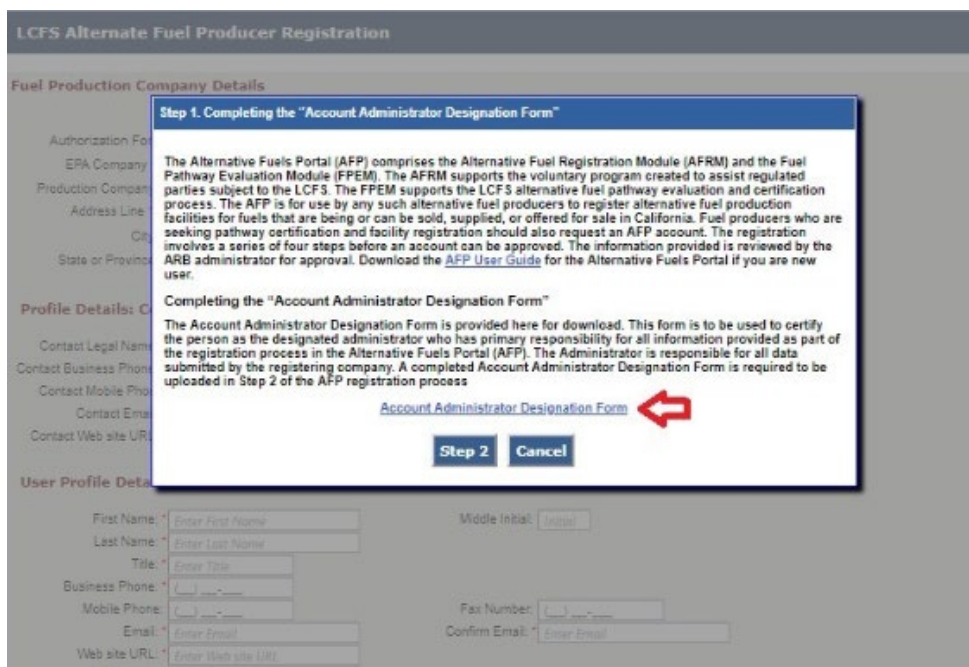

- Expanded visible fields in the Annual Fuel Pathway Report Operational CI table. The new fields include the Fuel Name, Feedstock, Pathway Description, Number of months, Margin of Safety value, no fuel production to report.
- Added new data entry field for months of operational data and Margin of Safety provided in Annual Fuel Pathway Report submission.
- Added a “no fuel production to report” checkbox to the Operational CI page of the Annual Fuel Pathway Report submission page.
- Updated the user interface to display an error when the Operational CI field is blank and the “no fuel production to report” checkbox is not checked.

B. Creating an Account

1. If you do not currently have an Alternative Fuels Portal (AFP) entity account, go to the LRT-CBTS/AFP portal site and click "AFP Account" and create an entity account. If you have an entity account, proceed to part C of this guide.

2. Download the AFP Admin Designation form.

3. Complete the form, sign, and click Step 2 to upload the signed Designation form.

Version 20190101

LOW CARBON FUEL STANDARD

AFP Account Administrator Designation Form

► **Instructions:**

Please complete this form to authorize an Account Administrator for your company. A designated Account Administrator has the ability to create and manage additional user accounts within the company, and to submit information on behalf of the company for fuel pathway evaluation and certification. This document must be signed by two (2) designated signatories and uploaded to the LCFS Alternative Fuel Portal (AFP) during initial account registration. **Only Owners, Officers or Managing Partners having authority to legally bind the company should complete and sign this form.**

Owner, Officer, or Managing Partner

By signing below, I authorize the named Account Administrator to create and manage user accounts, and to submit documents through the AFP on behalf of the company named below.

Company Legal Name:

U.S. EPA Company ID (if any):

4. Check the box to agree to the Use Conditions and Disclaimer. Click the "Step 4" button.

Step 3. AFP General Use Conditions & Disclaimer

Data Submittal

The accuracy of any information submitted through the Alternative Fuels Portal (AFP), including but not limited to any claimed CI values, and the verification of any such submitted information is the sole responsibility of the Alternative Fuel Producer that submitted the information. The ARB makes no warranties, expressed, implied, or otherwise, as to the validity, accuracy, marketability, merchantability, or any other aspect of any information submitted under this registration program or any information published by ARB as a result of or derived from this registration. No data, analysis, results, or other information that may be published by ARB as a result of registration shall constitute or be construed as instruments, securities, or any other form of property. Further, no LCFS credit derived from the registration data, analysis, results or other registration information published by ARB shall constitute or be construed as instruments, securities, or any other form of property.

Verification

ARB reserves the right to review and audit at any time any of the information submitted through this portal and, as a result, data, analysis, results, or other registration information published by ARB are subject to change.

Attestation Form Submittal

In order to register a fuel pathway or to submit a fuel pathway for evaluation you will be required to complete and submit the appropriate attestation form. There are separate attestation forms required for registering a fuel pathway and for submitting an application package for fuel pathway evaluation. The forms are provided in the portal.

I agree to these conditions.

Step 4 **Cancel**

5. Enter the company and user contact information. If your company is registered with the EPA, select the EPA Company ID. Otherwise, check the box that indicates that you do not have an EPA Company ID. A CARB Company ID will be generated upon submission of your account information. Complete all the information and submit the account activation application. Your account will be pending until activated by CARB.

Update **User Profiles** Back

- Click "View" to see the user's information. A standard User can edit their own information. If you are assigned an Admin¹ role, you can modify your own profile or those of other users.

The screenshot shows the 'Users for ARB Test2' interface. At the top, there is a navigation bar with tabs: Home, Producer Profile, FPC, My Facilities, Registered Facilities, Reports, and Correspondence. Below this, a welcome message reads 'Welcome: Christina Tillman for ARB Test2'. The main section is titled 'Users for ARB Test2' and includes a sub-header 'Fuel Production Company: ARB Test2' and 'Company ID: C1002'. The user profile form for 'Hafizur Chowdhury' includes fields for First Name, Middle Initial, Last Name, Title, Business Phone, Mobile Phone, Fax Number, Web site URL, Email, and Username. A red box highlights the status options: User Locked, User Active, Password Reset Needed, and Security Question Reset Needed. Below the form are 'Update' and 'Cancel' buttons. At the bottom, a table lists users with columns for Full Name, Username, Role, Email, Authorization Letter Archive, History, User Details, and Password.

Full Name	Username	Role	Email	Authorization Letter Archive	History	User Details	Password
Christina Tillman	czhangti3	ADMIN	czhangti@arb.ca.gov	View	View	View	Temp
Hafizur Chowdhury	hchowdhury	USER	Hafizur.Chowdhury@arb.ca.gov		View	View	Temp

For Admin users, the following user profile functions are available to enable you to administer your company's user accounts.

User Locked - If a user has attempted to log in too many times without success, their account will be locked. You can unlock the account by unchecking the box.

User Active - You can activate or deactivate a user by checking this box. Inactivated users cannot log in to the system.

Password Reset Needed - You can set the account to require a password reset by checking the "Password Reset Needed" box. This will force the user to reset their password upon sign-in.

Security Question Reset Needed - You can set the account to require an update to security questions by checking this box. This will force the user to update their security questions upon sign-in.

Temp - Clicking this link will send a temporary password for a user. This is done if the user forgets their password or require a temporary password because they are unable to reset the password on their own.

¹ By default, the initial user registered in the AFP is an Admin. The Admin can be changed by submitting a new AFP Admin Designation form to CARB via the Correspondence tab.

E. Creating a Facility

1. Go to "My Facilities" and click "Add Facility".

Home | Producer Profile | FPC | **My Facilities** | Registered Facilities | Reports | Correspondence

Welcome: Christina Tillman for ARB Test2

Fuel Producer Company Facilities

Fuel Producer Company: ARB Test2
Company ID: C1002

Facility Name	Facility ID	Address	Geographic Coordinates	UTM Coordinates	Facility Contact Details	Fuel Pathway Applications

- Click "Add Pathway" to add a pathway to the application. A Pathway Details pop-up window is shown. Enter the pathway details. If you have designated your application to have multiple pathways, you must add more than one pathway to continue. Click "Next" to continue.

- In the Pathway Details pop-up window, add pathway details such as the fuel type, feedstock, pathway description, and the CI for which you are applying. For Temporary and Lookup Table pathways, the CI and pathway descriptions are pre-defined. For Tier 1, Tier 2, and Design-Based pathways, you must enter the CI and pathway description.

- To add supporting documents, click “Add File” and upload the required supporting documents. The required documents denoted by * are the baseline minimum requirements for AFP submission. They do not include all required documents for your pathway. Please contact CARB if you have any questions about required documents per the LCFS regulation section 95488.

Upload Document

The required files marked below are baseline or minimum requirements for this application. They do not include pathway supporting documents, which can vary depending on the type of application. Some examples of supporting documents include utility invoices, feedstock invoices, production and sales records and biomethane contract documents. Refer to the Temporary Application Questionnaire for applicable supporting documents.

File Name:* No file chosen

File or Document Type:*

Remarks:

G. Reviewing Pathway Details

1. Go to the facility under which the application was submitted. Click "View Pathways". For the application of interest, you can expand the application details window on the left to see the joint applicant(s), if any, specific pathway(s) details and documents submitted. You can also select "View" under the Details column to open the application to view the details. For applications that are 'Saved' and have not been submitted, you can continue to edit the application. For applications that are 'Submitted' or are being processed by CARB, the application will open in read-only mode and cannot be edited.

Welcome: Christina Tillman for ARB Test2

I. View Certified Pathway Details

- For applications submitted on or after January 8, 2019, full detailed certified information for each certified pathway is available and displayed with history tracking. Under each application number, open the additional information by clicking on the expansion triangle. Click the certification “Details” link for a pathway to view the certification information.

Note. In some cases, a pathway may not have a certification “Details” link. This occurs when a) the application is in review and is not yet certified; b) the application is certified but a pathway (part of a multi-pathway package) is not certified; or c) the application is rejected by CARB. Please contact CARB if you have questions regarding the certification details of your application.

- View Certification Details for Tier 1 and Tier 2 Pathways.

For Tier 1 and 2 applications, the “Certified Pathways” page shows all certified information including historical certification details. The original pathway information (user-proposed fuel, feedstock, pathway description, and CI) is shown in the top section and the corresponding information for all certified pathway(s) is displayed underneath. Each time a pathway is certified (such as from provisional status to regular), a new fuel pathway code (FPC) is generated and added to the table, with the latest certified value shown first.

Note. Certified FPC statuses are shown as “Active” or “Inactive”. To allow for reporting and credit generation, the FPC status will remain “Active” even if the effective time period for a FPC has expired. For instance, a FPC showing an EndDate of 4/30/2019 will remain active for reporting purposes.

J. Providing Additional Information for an Application

1. A CARB Application Analyst may require additional information about your application. If this is the case, you will receive an AFP notification by email with a request for information similar to the following:

“AFP Applicant,

A Request for Information for B0005 has been entered and submitted.

Specific details of the Request for Information are contained in the comments field of the application. To access the application, log into the Alt. Fuel Portal (AFP).

AFP System”

2. Log into the AFP to retrieve the specific application by going to “My Facilities” then “View Pathways”. Open the application by clicking “View” under the Details column. A note from CARB will indicate the additional requirements. The document upload function in the application also becomes available so that you can provide additional documents. Click “Add File” to upload any additional documents. Click “Resubmit” when done. Enter an optional message and click “Submit”.

Tier 2 Pathway Application # B0005

INSTRUCTIONS

- This application contains joint applicants
- This application contains multiple pathways
- This is a provisional application.
(If application contains multiple pathways, each pathway will be provisional)

If the Comments field does not show the full message, enlarge the field by dragging the lower right corner.

K. Accepting/Declining Staff Summary for an Application

1. When the Staff Summary is ready for review, you will be notified by email with a message similar to the following:

"Fuel Producer: ARB Test2 (C1002) Facility Name: Final Testing Facility(F10009)

AFP Applicant,

The evaluation of your fuel pathway application "B0005" has been completed. The resulting "Staff Summary" has been posted in your application for review. To access the application, log into the Alt. Fuel Portal (AFP). Access the Staff Summary in the AFP by selecting the pathway application from the "Submitted Applications" and then selecting the View link in the details column for this application."

2. Go to "My Facilities", "View Pathways", and select the specific application. Download a copy of the Staff Summary by clicking the download arrow. (A Staff Summary can be either an Excel CI Summary or a Word Pathway Summary document, depending on whether the pathway is Tier 1 or Tier 2). After reviewing the Staff Summary, accept or decline the Summary by clicking on button in the Download column.

L. Reviewing an Application Returned by the Verification Body

1. If additional information is required, the VB will return the application for your review. The application status will change to “Revisions Requested” and the History will show the progress to-date. You can also see the specific VB that has requested the information (“Modified By”) and when the application was returned (“Last Modified”).

M. Submitting an Annual Fuel Pathway Report

The following is supplemental guidance for the Annual Fuel Pathway Report submission for entities with certified CA-GREET3.0 Tier 1, Tier 2, and Lookup Table pathways.

1. Go to LRT & AFP login page.

LOW CARBON FUEL STANDARD
Reducing the Carbon Intensity of California Transportation Fuels

LRT-CBTS & AFP Login

Username: XXXXXXXX
Password:

Login

Reset Password

Low Carbon Fuel Standard Reporting Tool and Credit Bank & Transfer System (LRT-CBTS)

Click the "LRT-CBTS Account" if you are the designated administrator or primary contact person for LCFS Quarterly and Annual Reporting and have not registered your organization. Upon account approval by CARB you will be able to login and assign roles to other users. Only users assigned "Signatory Authority" are able to submit LCFS reports. If you are an employee of a registered organization and you are only in need of a user account, please contact the administrator for your organization. Address Reporting questions to: LRTAdmin@arb.ca.gov

LRT-CBTS Account

2. Navigate to the "Annual Fuel Pathway Report" tab at the top.

Home | Producer Profile | FPC | My Facilities | Annual Fuel Pathway Report (2/20) | **Annual Fuel Pathway Report** | Registered Facilities | Reports

Correspondence | Welcome: AFP User8 for AFP Organization 2

Annual Fuel Pathway Report

Fuel Producer: AFP Organization 2
Company ID: C1134

INSTRUCTIONS

Click on "Create AFP Report" to begin Annual Fuel Pathway Report for CA-GREET3.0 certified Tier 1, Tier 2 and Lookup Table fuel pathways subject to annual reporting pursuant to LCFS Regulation section 95488.10. Select pathway application number, Verification Body name (Verification Body name only required for Tier 1 and Tier2 fuel pathways subject to verification) and Click "Add File" to upload the Annual Fuel Pathway Report and any supporting documents.

For Tier1 and Tier2 fuel pathways subject to verification the entity must enter the "Operational CI" of the Annual Fuel Pathway Report. The Operational CI does not include the margin of safety as provided at the time of fuel pathway certification.

Once appropriate documents and fields have been updated, click the "submit" button to submit Annual Fuel Pathway Report(s) to CARB.

Each Annual Fuel Pathway Report is separately submitted to CARB and routed to the selected Verification Body if applicable. In order to submit the Annual Fuel Pathway Report you must create the Annual Fuel Pathway Report, upload the report, acknowledge CARB provided attestation of report's accuracy, and select a Verification Body if applicable.

Report status is as follows

3. Select "Create AFP Report".

Year	App No.	Producer & Facility	Application Type	Verification Body	Verification Outcome	Status	Last Modified	Modified By	Report Details	History	Zip	Delete

4. Add/Create Annual Fuel Pathway Report

- a. The drop-down menu populates with all application numbers that require an Annual Fuel Pathway Report.

Click on "Create AFP Report" to begin Annual Fuel Pathway Report for CA-GREET3.0 certified Tier 1, Tier 2 and Lookup Table fuel pathways subject to annual reporting pursuant to LCFS Regulation section 95488.10. Select Pathway application number and Verification Body Name for Tier 1 and Tier 2 pathways and click "Add Annual Fuel Pathway Report" to upload the Annual Fuel Pathway Report and Operational CI.

Click on "Add File" to upload the Annual Fuel Pathway Report for CA-GREET3.0 certified Tier 1, Tier 2 and Lookup Table fuel pathways subject to annual reporting pursuant to LCFS Regulation section 95488.10.

Comments:

(Max:10000)

I, **AFP User**, as person with Signatory Authority, am submitting this report on behalf of **Random FPC Inc**, with the understanding that the information contained in this annual report is considered an official submission to the California Air Resources Board for purposes of compliance with the Low Carbon Fuels Standard (LCFS) regulation.

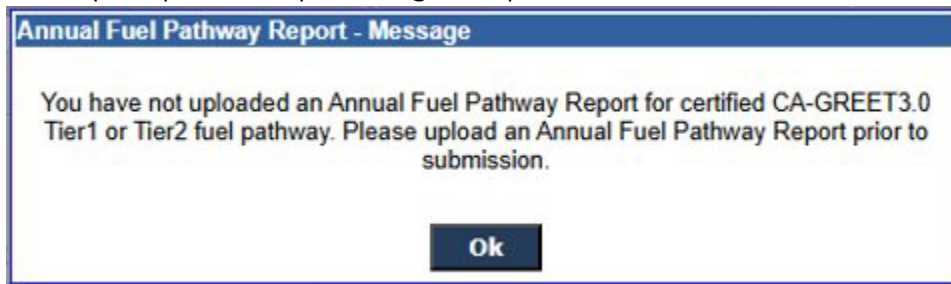

Furthermore, by submitting this report, I understand that I am bound by, and authenticate this record, and attest to the statements contained within. I also understand that submitting or attesting to false statements may constitute a serious crime, punishable under the California Penal Code, or other criminal offenses punishable under state, municipal, or federal law. I certify that information supplied herein is correct and that I have the authority by the company identified herein to submit this report.

For entities that include a non-zero margin of safety, an adjusted verified operating CI is the sum of the verified operational CI and the margin of safety value. For entities that have no fuel production for the previous 24 months and include a margin of safety value, the adjusted verified operating CI is the sum of the previously certified CI and the margin of safety value. As a representative of my company, I attest that the adjusted verified operating CI for the specified fuel pathway can be maintained through the next reporting period. I acknowledge that exceeding the adjusted CI in subsequent verifications will constitute non-compliance with the requirements of section 95488.10.

Back To Reports Home
Submit

- d. An error message appears if entities try to submit their Annual Fuel Pathway Report prior to uploading a required document.

- 6. Select the "+Add Operational CI" link then enter CI details for each pathway. If there is no fuel production to report for the prior 24 months, select the "No fuel production to report" checkbox. You cannot enter an Operational CI if the "No fuel production to report" checkbox is selected. If there is fuel production to report in the prior 24 months, you may enter an Operational CI value and indicate the number of months (1 to 24) covered by the AFPR. Fuel pathway holders should request a margin of safety by entering a value in the Margin of Safety value field. The field will accept up to two decimal places. The margin of safety value will be added to the verified operational CI after verification is complete. If "No fuel production to report" is selected, the margin of safety value will be added to the previously certified CI. Margin of safety value is a required field so enter zero if no margin of safety is requested. Staff recommend a margin of safety to avoid enforcement action for exceedance of the certified CI.
- 7.

As a representative of my company, I attest that the adjusted verified operating CI for the specified fuel pathway can be maintained through the next reporting period. I acknowledge that exceeding the adjusted CI in subsequent verifications will constitute non-compliance with the requirements of section 95488.10.

- a. An Error message appears if you try to submit without attesting to the report's accuracy and the adjusted verified operational CI information.

- 10. You will receive a message confirming successful Annual Fuel Pathway Report Submission.

- 11. If the Annual Fuel Pathway Report is returned from the Verification Body for corrections, the fuel pathway holder must re-enter information on the Operational CI screen prior to re-submitting the corrected Annual Fuel Pathway Report. An operational CI cannot be entered if there is no fuel production to report in the prior 24 months.

- 12. Confirmation message of successful Annual Fuel Pathway Report re-submission to CARB and immediately routed to the VB.

N. Contacting CARB

1. For general questions regarding the AFP system, please contact lcfspathways@arb.ca.gov.
2. For questions regarding application process and timeline, please contact your assigned Application Analyst.
3. If you are submitting pathway-related communications or providing business confidential information as required by your application, please use the AFP Correspondence module to submit all information. **Do not submit business confidential information through email.**
