Dear Sir or Madam:

The California Air Resources Board (CARB or Board) staff invites you to participate in a public workshop to discuss proposed amendments to the Low Carbon Fuel Standard (LCFS) Regulation. The proposed amendments and associated documentation were released for initial public comment on March 6, 2018. That initial proposal was discussed at the April 27, 2018 Board Meeting, at which the Board instructed staff to continue to develop an improved final amendments proposal based on Board and stakeholder feedback. The first proposed modifications to the initial proposal were released June 20, 2018 for public comment. Second proposed modifications will be discussed at this public workshop and then subsequently released for written comment.

Documentation related to this ongoing rulemaking are available here:
