

Linsey C. Marr

411 Durham Hall (0246)
Blacksburg, VA 24061

EDUCATION

Ph.D. University of California at Berkeley, Civil and Environmental Engineering, 2002

Changes in ozone sensitivity to precursor emissions on multiple time scales

Minor areas of study: Mathematics, Public Health

B.S. Harvard, Engineering Science, *Summa cum laude*, 1996

ACADEMIC APPOINTMENTS

2008 – present **Associate Professor**
Civil and Environmental Engineering
Virginia Tech

2003 – 2008 **Assistant Professor**
Civil and Environmental Engineering
Virginia Tech

2002 – 2003 **Postdoctoral Associate**
Earth, Atmospheric, and Planetary Sciences
Massachusetts Institute of Technology

AWARDS AND HONORS

- Virginia Tech College of Engineering Faculty Fellow, 2007
- National Science Foundation CAREER, 2006
- Virginia Tech College of Engineering Outstanding New Assistant Professor, 2006
- US Environmental Protection Agency STAR Graduate Research Fellowship, 1999-2002
- National Science Foundation Graduate Research Fellowship, 1996-1999
- Outstanding Graduate Student Instructor, University of California at Berkeley, 1999

TEACHING EXPERIENCE

I have taught courses at the undergraduate and graduate level in air quality engineering and an introductory course in environmental engineering. I strive to be an excellent teacher. My teaching ratings have been least 3.7 (4 = excellent, 3 = good, 2 = fair, 1 = poor) over the past three years.

Assistant Professor, Virginia Tech, Blacksburg
CEE 2804: Introduction to Civil and Environmental Engineering, 2005
CEE 3104: Introduction to Environmental Engineering, 2003 – present
CEE 4144: Air Resources Engineering, 2004 – present
CEE 5154: Air Pollution Control Engineering, 2003 – present

Teaching Assistant, University of California at Berkeley
CE 218A: Air Quality Engineering, 1998

Head Teaching Assistant or Teaching Assistant, Harvard
CS 50: Computer Programming, 1995
ES 96: Engineering Design Project, 1996
ES 123: Fluid Mechanics, 1995

WOODROW WILSON SCHOOL OF PUBLIC AND INTERNATIONAL AFFAIRS
SCIENCE, TECHNOLOGY AND ENVIRONMENTAL POLICY PROGRAM
PRINCETON, NJ 08544

EDUCATION

Harvard University

Ph.D., Atmospheric Chemistry, Earth and Planetary Science Department, 1996

Dissertation: Influence of fossil fuel combustion and biomass burning on tropospheric ozone.

Advisor: Professor Daniel J. Jacob

M.A., Atmospheric Chemistry, Earth and Planetary Science Department, 1992

Stanford University

M.S., Environmental Engineering, 1988

Brown University

Sc.B., with honors, Chemistry, 1985

PROFESSIONAL EXPERIENCE

Princeton University

Associate Professor of Public and International Affairs (with tenure), Woodrow Wilson School of Public and International Affairs (2006 - present)

Assistant Professor of Public and International Affairs, Woodrow Wilson School (1999 - 2006)

Affiliate faculty, Geosciences Department (1999 - present)

Affiliate faculty, Princeton Environmental Institute (1999 - present)

Affiliate faculty, Civil and Environmental Engineering Department (2003 - present)

National Center for Atmospheric Research, Boulder, CO

Visiting Scientist, Atmospheric Chemistry Division (Summer 1999)

Post-doctoral Fellow, Advanced Study Program (1996-1998)

United States Environmental Protection Agency, Washington D.C.

Program Manager, Global Change Division (1989-1990)

Environmental Consulting

Chief Environmental Engineer, Bruce Company, Washington D.C. (1988-1989)

Chemist, ICF Technology Inc., Washington D.C. (1985-1987)

GRANTS (principle investigator)

Regional Contributions to the Global Tropospheric Ozone Budget – Global Modeling and Data Analysis, NASA Atmospheric Chemistry Modeling and Analysis Program. (July 2000 – July 2004)

Inter-annual Variability in Trans-Pacific Transport of Pollution, NASA New Investigators Program. (September 2002 – August 2007)

Air Pollution Damages in the United States, Glaser Progress Foundation via collaborative contract award with Yale University. (June 2003 - July 2006)

HONORS

Intergovernmental Panel on Climate Change (IPCC) contributing author. The IPCC shared the Nobel Peace Prize with Vice President Al Gore. (2007)

Executive Committee, Cooperative Institute for Climate Science, Princeton University and NOAA Geophysical Fluid Dynamics Laboratory (2006 -)

National Research Council / National Academy of Science, Committee on Air Quality Management in the United States. (2/2001- 4/2004)

Science Steering Committee, International Geosphere Biosphere Program (IGBP), Analysis, Integration and Modeling of the Earth System (including human impacts). (2005 -)

NASA New Investigators Program grant. (2002-2006)

Advanced Study Program Postdoctoral Fellowship, NCAR. Provided 2 years of unconstrained research funding. (1996-1998)

AAAS Congressional Science Fellowship (declined). (1996)

NASA Graduate Student Fellowship in Global Change Research Provided stipend, research and travel funds for 3 years of doctoral research. (1993-1996)

Invited participant, Atmospheric Chemistry Conference for Emerging Senior Scientists. (ACCESS) and Gordon Conference in Atmospheric Chemistry. (June 1995)

Harvard University Certificate of Distinction in Teaching. (1992 - 1993)

Harvard University Levinson Teaching Award nomination. (1993)

Graduate Student Fellowship, U.S. Dept. of Education, tuition and stipend. (1991 - 1993)

Stanford University School of Engineering Fellowship, tuition. (1987 - 1988)

Elected to Sigma Xi. (1985)

Sc.B. awarded with departmental honors, Brown University. (1985)

TEACHING

Princeton University, Woodrow Wilson School of Public and International Affairs

WWS402d Development of Policy Initiatives for the Sustainable Use of Energy at Princeton University (Spring 2007)

WWS402e Sustainable Development – Can We Do It? (Spring 2003)

WWS402e Air Pollution, Climate Change and Energy: How China Matters (Spring 2001)

WWS402f Air Pollution in India and China: Thinking Globally, Acting Locally (Spring 2000)

WWS475 Global Environmental Issues (Spring 2003, Spring 2005, Fall 2005)

WWS584 The Use of Science in Environmental Policy (Fall 2004)
WWS586e Global Environmental Issues: Science and Policy (Spring 2005)
WWS588 Issues in Science, Technology and Environmental Policy (Spring 1999)
WWS589 Methods in Science, Technology and Environmental Policy (Fall 1999, 2000 & 2002)
WWS591a Policy Workshop: Climate Change, State initiatives, and Coastal Hazards: Mitigation and Adaptation Strategies for New Jersey (Fall 2006)
WWS591d Environmental Diplomacy (with Mr. Daniel Reifsnyder) Policy (Fall 1999)

Doctoral Students (primary adviser)
Xiaoping Wang (Ph.D. 2004);
Junfeng Liu, G5;
Eri Saikawa, G1.

Harvard University, Harvard College, Teaching Fellow
Environmental Science and Public Policy, Profs. M.B. McElroy and W. Clark (Fall and Spring 1993)
Atmospheric Chemistry, Department of Earth and Planetary Science, Prof. D.J. Jacob (Spring 1992)
The Atmosphere, Undergraduate core program, Professor M.B. McElroy (Fall 1991)

Brown University, Department of Chemistry, Teaching Assistant
Honors Chemistry. First year honors course, Professor P. Rieger (Fall 1983)

ADMINISTRATIVE RESPONSIBILITIES AT PRINCETON

Chair, Science, Technology and Environmental Policy program (1999 - 2000)
Chair, STEP Doctoral Program (1999 - 2001)
Woodrow Wilson School Senior Thesis Prize Committee (1999, 2000)
Masters of Public Policy, Admissions Committee, WWS (1999, 2000)
Masters of Public Affairs Admissions Committee, WWS (2002, 2003, 2005, 2006)
University Committee on Libraries and Computing (2002 - 2005)
Woodrow Wilson School undergraduate committee (2006, 2007)
Faculty fellow, Mathey College (2003 - present)

PROFESSIONAL ACTIVITIES

Journal Referee
Science; Journal of Geophysical Research - Atmospheres; Geophysical Research Letters;
Atmospheric Environment; Environmental Science and Technology; Annual Review of Energy and the Environment; Environmental Management; Journal of Atmospheric Science;
Journal of Atmospheric Chemistry; Atmospheric Chemistry and Physics.

Grant Reviewer
National Aeronautic and Space Association (NASA);
National Science Foundation (NSF);
Research Grants Council of Hong Kong.

Book Reviewer
Prentice-Hall; Princeton University Press.

MASSACHUSETTS INSTITUTE OF TECHNOLOGY
Personnel Record

Date: December 2008

Name: John Matthew Reilly

Department: Sloan School

1. Date of Birth: August 26, 1955

2. Citizenship: US

3. Education:

<u>School</u>	<u>Degree</u>	<u>Date</u>
University of Wisconsin	BS	1976
University of Pennsylvania	MS	1979
University of Pennsylvania	PhD	1983

4. Title of Thesis for Most Advanced Degree:

An Economic Analysis of Global Energy and Carbon Dioxide Emissions

5. Principal Fields of Interest:

Energy, Agricultural and Environmental Economics, Integrated Assessment of Global Change

6. Non-MIT Experience (including military service):

<u>Employer</u>	<u>Position</u>	<u>Beginning</u>	<u>Ending</u>
US, Dep't of Energy Energy Info. Adm.	Economist	June 1978	August 1978
US Dep't of Transportation Office of the Secretary	Economist	June 1979	August 1979
Institute for Energy Analysis Oak Ridge Ass. Univ.	Research Scientist	January 1980	July 1985
Pacific Northwest National Laboratory Battelle Memorial Inst.	Research Scientist	July 1985	August 1986
US Dep't of Agriculture Econ. Res. Serv.	Dep. Dir. for Res.	August 1986	July 1998

7. History of MIT Appointments:

<u>Rank</u>	<u>Beginning</u>	<u>Ending</u>
Visiting Researcher (Intergov'l Per. Agr.)	July 1992	June 1993
Principal Research Scientist, Energy Laboratory	July 1998	Sept. 2003
Senior Research Scientist, Laboratory for Energy & the Environment	Sept. 2003	June 2007
Senior Lecturer, Sloan School	July 2007	present

8. Consulting Record:

<u>Firm</u>	<u>Beginning</u>	<u>Ending</u>
Stratus Consulting	August 1998	June 1999
University Corporation for Atmospheric Research (UCAR)	December 1998	June 2001
Asian Development Bank	January 2007	April 2007
Florida Legislature	October 2007	April 2008
Progressive Energy	December 2007	June 2008

9. Professional service:

<u>Activity</u>	<u>Beginning</u>	<u>Ending</u>
US delegate; OECD Ag. Research Director's Meeting	June 1988	June 1988
Author, Intergovnt'l Pan. Climate Change (IPCC)	January 1989	June 1991
Chair, U.S. Fed. Task Group: Econ. of Global Change	June 1991	June 1992
Convening Lead Author, WG II, IPCC	March 1993	March 1996
National Acad. of Public Administration (reviewer)	June 1994	June 1994
Vice Chair, U.S. Nat. Assess. Working Group	May 1997	July 1998
NRC, Panel on Integrated Env. & Econ. Accounting	September 1997	August 1999
Co-Chair, US Ag. Sector Assessment of Climate Change	October 1998	January 2002
NRC, Committee on Global Change Research	July 2000	February 2002
Adv. Com. Consort. for Ag. Soils Mitigation of GHGs	September 2001	Sept. 2004
US Carbon Cycle Science Steering Group	May 2003	June 2006
US Climate Change Science Program, Lead Author, Synthesis and Assessment Product 2.1	January 2005	July 2007
EPRI California Climate Policy Project: Research Advisory Board	June 2006	January 2007
Massachusetts Blue Ribbon Panel		

10. Awards Received:

<u>Award</u>	<u>Date</u>
USDA Award for Superior Service	June, 1989
ERS Administrator's Award for Outstanding Research	April, 1989
ERS Excellence Award	November, 1995
Alan A. Powell Award	June, 2001

11. Current Organization Membership:

OrganizationOffices Held

American Economic Association
 American Geophysical Union

12. Biographical Sketch

Dr. Reilly is the Associate Director for Research in the Joint Program on the Science and Policy of Global Change and Senior Research Scientist in the Laboratory for Energy and the Environment at MIT. Much of his 20-year research career has focused on the economics of climate change, including modeling of energy use and carbon emissions and on the economic impacts of climate change on agriculture as well as consideration of agriculture and forestry sinks. He has published numerous articles, books, and reports on the economics of climate change and on other issues related to natural resources, technology, and energy use and supply. He was a principal author for the agricultural impacts chapter of the IPCC Second Assessment Report, co-chaired the agricultural sector assessment of the US National Assessment on Climate Variability and Change, and has served on many US Federal government and international committees. Prior to joining MIT in 1998, he spent 12 years with the Economic Research Service of USDA, most recently as the Acting Director and Deputy Director for Research of the Resource Economics Division. He has been a scientist with Battelle's Pacific Northwest National Laboratory and with the Institute for Energy Analysis, Oak Ridge Associated Universities. He received his Ph.D. in economics from the University of Pennsylvania in 1983 and holds a B.S. in economics and political science from the University of Wisconsin and is a member of the American Economics Association.

Publications of John M. Reilly

1. Books

1. Edmonds, J., J. Reilly, *Global Energy: Assessing the Future*, Oxford University Press, 1985
2. J. Reilly (editor), *Agriculture: The Potential Consequences of Climate Variability and Change*, Cambridge University Press, 2002.

2. Papers in Refereed Journals

Doctoral Theses, SupervisorDoctoral Theses, Reader

Shoemaker, Robbin, "The Incentive Effects of Agricultural Support Programs: A Dynamic Analysis of United States Agricultural Policy," George Washington University, Department of Economics, May 1992.

Current Students: Kung- Min Nam (Ph.D. Department of Urban Studies and Planning); Jaemin Song (Ph.D. Energy Systems Department); (M.S., Energy Systems Department), Valerie Karplus (M.S., Energy Systems Department), Jennifer Holak (M.S. Energy Systems Department, entering Fall 2007).

Valerie Thomas, PhD – Brief Biography

http://www2.isye.gatech.edu/people/faculty/Valerie_Thomas/

Valerie Thomas is the Anderson Interface Associate Professor in the School of Industrial and Systems Engineering at Georgia Tech, with a joint appointment in the School of Public Policy, and an adjunct appointment in the School of Earth and Atmospheric Sciences. Her research is in Industrial Ecology, with emphasis on the environmental impacts of materials and products. Current research includes environmental impacts of biofuels, the potential for renewable energy in Georgia, sustainability in Atlanta, environmental implications of second-hand markets, use of barcodes, RFID, and electronics for lifecycle tracking of products and wastes, and energy efficiency in freight transportation. Past research includes development of a research agenda for reinventing the use of materials, one of the eight Grand Challenges of Environmental Science identified by the US National Research Council.

Thomas has a Ph.D. in theoretical physics from Cornell University and a B.A. in physics from Swarthmore College. She is a Member of the US EPA Science Advisory Board, a Member of the Panel on Public Affairs of the American Physical Society, and was Chair of the 2006 Gordon Research Conference on Industrial Ecology, which was held at Queens College, Oxford UK, from August 6-11, 2006.

In 2004-2005 she was the American Physical Society Congressional Science Fellow, during which time she worked in the legislative office of Representative Rush Holt on science policy issues including energy policy legislation and legislation to re-establish a technology assessment capacity in the U.S. Congress. She also managed the Congressional R&D Caucus and the Congressional Biomedical Research Caucus for Rep. Holt.

From 1989 to 2004, Thomas was a Research Scientist and Lecturer at Princeton University. From 1987 to 1999 she was a Research Fellow in the Department of Engineering and Public Policy at Carnegie Mellon University.

Selected Publications

"The Environmental Potential of Reuse," V. M. Thomas. Submitted to Journal of Industrial Ecology, February 2007.

"Relation of Chlorine, Copper, and Sulfur to Dioxin Emission Factors," V. M. Thomas and C. M. McCreight. Journal of Hazardous Materials, 151, 164-170, 2008.

"Systematic Approach to Evaluating Tradeoffs among Fuel Options: The Lessons of MTBE," J. Michael Davis and Valerie M. Thomas. Annals of the New York Academy of Sciences 1076:498-515 (2006).

"Toward Intelligent Recycling: A Proposal to Link Bar Codes to Recycling Information," S. Saar and V. M. Thomas. Resources, Conservation, and Recycling 41(1):15-21, 2004 (pdf).

"Product Self-Management: Evolution in Recycling and Reuse," V. M. Thomas. *Environmental Science and Technology* 37 (23) 5297-5302, 2003.

"Research Issues in Sustainable Consumption: Toward an Analytical Framework for Materials and the Environment," V. M. Thomas and T. E. Graedel. *Environmental Science and Technology* 37 (23) 5383-5388, 2003.
