

# Public Health: HVIP Metrics

## **Over 180 Million Clean Vehicle Miles Traveled**

(Cleaner-than-diesel miles traveled in California by HVIP-funded vehicles, 2010-2020)

## **57% of all vouchers, representing 59% of HVIP's total investment statewide, has funded vehicles deployed in Disadvantaged Communities**

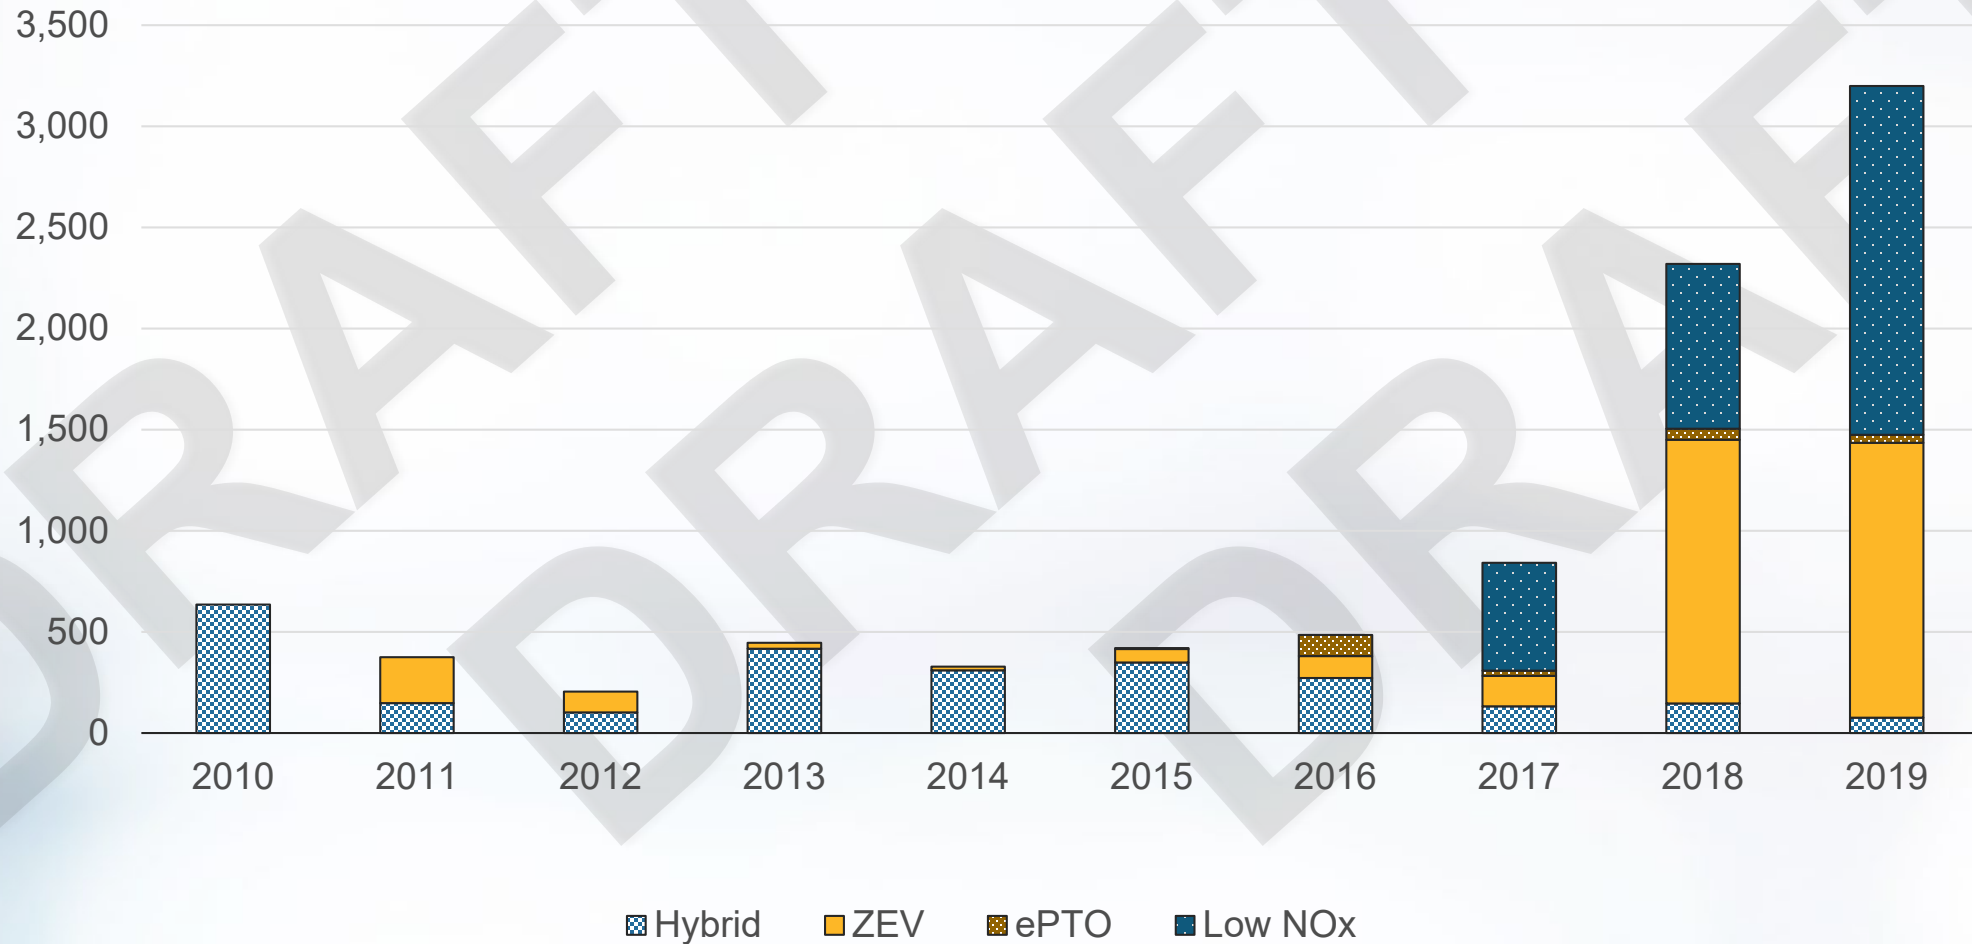

(Disadvantaged communities are Census-designated areas overburdened by the effects of air pollution due to geographic and socioeconomic factors.)

# Growing the Green Economy: HVIP Metrics

- HVIP has funded over **\$208 million** toward the purchase of **over 5,500 clean vehicles** since 2010.
- This investment leveraged **\$1.2 billion** additional dollars of other public and private spending toward these purchases – \$5.83 for every \$1 of HVIP investment.
- This data encompasses only deployed vehicles (redeemed vouchers), not active vouchers for vehicles that are yet to be built / delivered.

# Growing the Green Economy: HVIP Metrics

## Annual HVIP Vouchers By Technology

# Technology Status: HVIP Metrics

- **Analysis Under Development:** Average purchase price per vehicle, large (>10) transit orders; decrease over time
- **Analysis Under Development:** Directional readiness progressing toward “tech victory” with four arrows (e.g. transit, delivery trucks, GSE). Width of arrows could correspond to number of manufacturers, number of vouchers requested, workforce growth, etc.
