

CALIFORNIA AIR RESOURCES BOARD

Fiscal Year 2016-2017 and 2017-18 Agricultural Worker Vanpools Pilot Project List of Applications Received and Project Executive Overviews

Project Applicant: California Vanpool Authority

Executive Project Description:

"The California Vanpool Authority (CalVans) is undertaking the San Joaquin farmworker mobility Project, targeted towards those farmworkers living in disadvantage communities identified by using the CalenviroScreen 3.0 screening tool. The \$6 million project will provide up to 180, 15-passenger hybrid vans in eight San Joaquin Counties, ranging from San Joaquin to the north and Kern to the south. The creation of 180 farmworker vanpools will result 5,000 daily trips for those commuting from their home and to an agricultural worksite. CalVans is cash match of \$1.5 million towards the project. The total GHG emission reduction from this project will be 4,088 MT CO₂E, or .00068 per grant dollar."

**Executive overviews are provided by applicants and are not reviewed, edited, or endorsed by the
