\*D19a. If the watercraft's fuel system is designed to support an auxiliary engine, describe fuel system for any auxiliary engines and how the requirements in section 2854 or 2855 were met:

When an auxiliary engine (generator) is installed it will use the same fuel system that provides fuel to the propulsion engines with the addition of a 1/4" fuel line included under the same EO# shown above. Some models provide for an optional diesel generator that will have a separate diesel fuel system.
