SUBJECT: INCENTIVE PROGRAMS ADVISORY GROUP PUBLIC MEETING

The Air Resources Board (ARB) invites you to participate in a public meeting of the Incentive Program Advisory Group (formerly known as the Carl Moyer Program Advisory Group). ARB Member Sandra Berg will lead the meeting.

The Carl Moyer Program Advisory Group has provided a forum for discussing policy level issues relating to the development and ongoing implementation of the Carl Moyer Program. In recent years, California's portfolio of incentive programs has expanded beyond the Carl Moyer Program to include the Lower-Emission School Bus Program, the Goods Movement Emission Reduction Program, the AB 118 programs, and other locally run air district programs. In recognition of this broader scope, ARB is renaming this group the Incentive Programs Advisory Group. Board Member Berg will continue to lead the group. We hope the Advisory Group will continue to provide a useful venue for policy level coordination among air quality agencies and other interested stakeholders.

Meeting Location: The meeting will be held at the following time and place:

Date: August 17, 2009
Time: 11:00 am to 2:30 pm
Place: Cal/EPA Headquarters Building
Coastal Hearing Room, 2nd Floor
1001 I Street
Sacramento, California 95814

Webcast Information: This meeting will be webcast for those who are unable to attend in person. The webcast can be accessed at <http://www.calepa.ca.gov/broadcast/> on the day of the meeting.

Meeting Information: A tentative meeting agenda is enclosed. The meeting will focus on coordination among California's various air quality incentive programs and improving small business access to incentive programs. These topics were identified for follow up discussion during the Carl Moyer Program Advisory Group meeting last September. ARB staff plans to kick off each agenda item with a short presentation to frame the

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.
