

## How to Report Engine Repowers

Repowering off-road diesel vehicles (i.e., replacing older, dirtier engines with newer, cleaner ones) is an important option for fleets complying with the turnover requirements of the In-Use Off-Road Diesel-Fueled Fleets Regulation (Off-Road Regulation). The Off-Road Regulation grants early credit for certain repowers performed on or before January 1 of the year prior to the fleet's first required compliance date.

For more information, see our Regulations FAQs on Early Credits in the [Off-Road Zone](#) at [www.arb.ca.gov/offroadzone](http://www.arb.ca.gov/offroadzone).

To report an engine repower, you must first report the vehicle information as well as the engine information for the previously installed engine (i.e., the original engine or the removed engine).

For more information on how to report your vehicle and engine information and updating fleet information see our DOORS User Guides in the [Off-Road Zone](#) at [www.arb.ca.gov/offroadzone](http://www.arb.ca.gov/offroadzone).

Once your vehicle has been assigned an Equipment Identification Number (EIN), you may proceed to reporting the engine repower, as explained below.

### Receiving Repower Credit

DOORS will automatically calculate BACT credit for the repower provided it meets the Order of BACT Requirements. For additional information, see the Order of BACT FAQ document in the [Off-Road Zone](http://www.arb.ca.gov/offroadzone.page) at [www.arb.ca.gov/offroadzone.page](http://www.arb.ca.gov/offroadzone.page). Fleets can review their BACT credits in the compliance snapshot. For more information, see the Compliance Snapshot FAQ document in the [Off-Road Zone](http://www.arb.ca.gov/offroadzone) at [www.arb.ca.gov/offroadzone](http://www.arb.ca.gov/offroadzone).
