Background

U.S. EPA has requested that CARB provide a technical revision to an emissions reduction commitment contained in the 2012 PM2.5 Plan. The revision is a translation of a reduction commitment from the inventory used in the 2012 PM2.5 Plan to the most current inventory. U.S. EPA has requested this technical revision to support its current consideration of approval of the 2018 Plan for the 1997, 2006, and 2012 PM2.5 Standards.
