Det Ratio: Ratio of sum of detected values to the sum of detected and non-detected values.

RSD: 100 times the standard deviation divided by the arithmetic average

Uncertainty: 100 times the 95% confidence interval divided by the arithmetic average.

Det Ratio: Ratio of sum of detected values to the sum of detected and non-detected values.

RSD: 100 times the standard deviation divided by the arithmetic average

Uncertainty: 100 times the 95% confidence interval divided by the arithmetic average.
