## **I. Proposition 1B: Goods Movement Emission Reduction Program**

[this page intentionally left blank]

## EXECUTIVE SUMMARY

The \$1 billion Proposition 1B: Goods Movement Emission Reduction Program (Program) is being implemented in California's four priority trade corridors (Los Angeles/Inland Empire, Central Valley, Bay Area, and San Diego/Border), reducing freight pollution and the associated health risks in communities near seaports, railyards, freeways, and distribution centers. Health and Safety Code section 39625 et seq. established the Program and directed the California Air Resources Board (CARB or Board) to maximize emission reduction benefits while achieving the earliest possible health risk reductions. This report describes the progress of the Program through September 2016, including a listing of each grant with the funding amount, location, the number of trucks or other equipment that have been or are being upgraded, the timeframe for completion, and the expected emission reductions.

Of the \$1 billion authorized, CARB has allocated \$980 million for local agency projects and CARB's administration costs (\$20 million is retained by other State agencies for bond issuance and oversight costs). Of this amount, CARB has received or been approved for \$900 million in cash. CARB will need to request the remaining \$80 million to cover projects and provide for CARB's administration costs over multiple years. CARB awards and oversees grants to local agencies that in turn offer competitive incentives to diesel equipment owners to upgrade to cleaner technologies ahead of, or beyond, regulatory requirements. To ensure accountability and effectiveness, all grants are awarded in an open, public process, as required by CARB Program Guidelines.

The local agencies have completed the Year 1 through Year 4 projects with over 12,800 diesel trucks replaced or retrofitted and operating in the four primary trade corridors. Additionally, 25 upgraded locomotives are operating in the Central Valley and Los Angeles/Inland Empire; grid-based electrical power was installed at 37 ship berths at the Ports of Oakland, Los Angeles, Long Beach, and Hueneme; and 3 upgraded commercial harbor craft are operating in California waters. These projects will reduce over 4.5 million pounds of fine particulate matter (PM) and almost 149 million pounds of nitrogen oxides (NOx) over the term of the contracts.

The local agencies held multiple solicitations for truck, locomotive, ships at berth, cargo handling equipment, transportation refrigeration unit, and commercial harbor craft projects beginning Fall 2015 through Fall 2016. The local agencies received applications to upgrade or replace almost 4,000 pieces of equipment and related infrastructure to charge electric equipment. CARB estimates these projects will reduce over 400,000 pounds of PM and almost 21 million pounds of NOx over the term of the contracts.

The report is available electronically at: <http://www.arb.ca.gov/mandrpts/mandrpts.htm>. To order a hard copy, please contact Mr. Jonathan Harmon at (916) 445-2191.

## 2017 Report to the Legislature

*Previously submitted to the Department of Finance as:  
December 2016 Status Report to the Department of Finance*

This status report provides an update on implementation of the \$1 billion Proposition 1B: Goods Movement Emission Reduction Program (Program) to reduce emissions and health risk from freight operations in California's priority trade corridors through incentives. Consistent with State law, the Program Guidelines for Implementation (Guidelines) and related documents detail the grant/contract requirements for the Air Resources Board (ARB or Board), participating local agencies, and equipment owners (see Program website at: <http://www.arb.ca.gov/gmbond>).

ARB adopts the Guidelines, then solicits, awards, funds, and oversees grants to local agencies like air districts and seaports. The local agencies offer grants or contracts, through a competitive process, to diesel equipment owners to co-fund the upgrade of diesel equipment to cleaner technologies ahead of or beyond regulatory requirements to do so.

To ensure accountability and effective use of these public funds, the local agencies: solicit for eligible projects; review applications; inspect the old equipment; provide data to rank competitively each piece of equipment based on emission reductions and cost-effectiveness; sign grants or contracts with equipment owners; inspect the upgraded equipment; make payment for the cleaner technology; and track/report on funded projects.

The information in this report is based on the local agencies' semi-annual project reports as of September 30, 2016, and supplemented with information in the Program's Goods Movement Online Database. The information is reported by year of funding, as defined below.

- Year 5: Awarded September 2015 Board Meeting.
- Year 4: Awarded July 2013 Board Meeting.
- Year 3: Awarded December 2011 Board Meeting - drayage truck projects only.
- Year 2: Awarded June 2010 and December 2011 Board Meetings.
- Year 1: Awarded May 2008 Board Meeting.

### **Available Funding and Expenditures**

Each budget appropriation authorizes ARB to use a specific amount of funding for the Program, within statutory timeframes. However, the appropriation does not provide any cash for this purpose. Therefore, the Program depends on the receipt of proceeds from State bond sales or other mechanisms to fund new projects.

The entire \$1 billion has been appropriated in State budgets (over multiple years), with \$980 million to ARB for this Program and \$20 million set aside by the control agencies to cover bond issuance and oversight costs.

## 2017 Report to the Legislature

*Previously submitted to the Department of Finance as:  
December 2016 Status Report to the Department of Finance*

To date, ARB has allocated approximately \$980 million including \$938 million for local agency projects and about \$42 million for ARB's administration costs over multiple years. ARB has paid about \$729 million to local agencies and for ARB's administration costs to date.

### **Implementation of Local Agency Funds**

**Year 5.** In September 2015, the Board awarded approximately \$220 million for truck, locomotive, ships at berth/cargo handling equipment, transport refrigeration unit (TRU), and commercial harbor craft projects throughout the State. The award also included \$1 million for the truck filter substrate replacement program. ARB has approved the local agencies' request that funds not utilized from prior year grants due to project fallout be made available for Year 5 truck projects.

**Year 4.** In July 2013, the Board awarded approximately \$143 million for truck projects throughout the State, including funds for loan assistance. In addition, over \$6 million was awarded for a truck filter substrate replacement project and nearly \$1 million for harbor craft projects. Any funds not utilized for projects were reallocated to Year 5 truck projects.

**Year 2 and Year 3.** ARB received funds for these projects in 2010 and 2011 from multiple bond sales. In June 2010, the Board awarded \$200 million in available cash primarily for truck projects and ships at berth/cargo handling equipment projects, with smaller grants for locomotive and harbor craft projects. In December 2011, the Board awarded and allocated approximately \$122 million from bond sales and funds redirected from ARB's administration costs for truck projects. Any funds not utilized for projects were reallocated to Year 4 truck projects.

**Year 1.** The first year funds of approximately \$246 million were used for projects to upgrade trucks, locomotives, and ships at berth. All of these projects were suspended for 6 to 14 months due to the December 2008 "stop work" order on bond-funded programs, which resulted in an extended delay from time of application to contract. This led to some funds being unused by the local agencies; grant agreements were amended to transfer funds from undersubscribed grants to oversubscribed grants.

## 2017 Report to the Legislature

*Previously submitted to the Department of Finance as:  
December 2016 Status Report to the Department of Finance*

### **Project Results**

The Program bond monies have leveraged substantial match funding from private, local, and federal sources – more than one match dollar for every Program dollar invested.

**Year 5.** ARB executed grant agreements with local agencies in March 2016. The local agencies held multiple solicitations for all source categories beginning Fall 2015 through November 2016. They received applications for over 2,000 trucks; about two thirds of the projects are advanced technologies including low-nitrogen oxide (NOx), hybrid, and zero emission trucks, with the balance for new cleaner natural gas and diesel trucks. Local agencies also received applications for over 1,700 TRUs and electric power plugs, over 200 cargo handling equipment, 39 locomotives, 3 ships at berth, and 3 commercial harbor craft.

The local agencies are actively implementing the projects, which are in various stages depending upon when the solicitation was held and the number of applications received. They began signing contracts with truck owners in April 2016 and some projects are now operational. Local agencies are in the process of signing contracts for some locomotive projects and expect to begin signing contracts for the other source categories in early 2017. In addition, local agencies plan to hold solicitations in early 2017 for source categories that are undersubscribed.

**Years 1 to 4.** These projects are complete and all equipment is operational.

**Trucks.** More than 12,800 cleaner trucks are operating in the four priority trade corridors. The upgraded equipment includes approximately 1,600 trucks retrofitted with diesel soot filters and the replacement of over 480 trucks with new cleaner natural gas trucks. Small truck fleets (1 to 3 trucks) have received funding to upgrade about 5,400 trucks.

**Ships at Berth.** The Bay Area District's early grant project to install grid-based electrical power for three berths at the Port of Oakland has been operational since 2011. Under Year 2 grant projects, the installation of grid-based electrical power was completed in late 2013 for 9 berths at the Port of Oakland and 25 berths at the Ports of Long Beach, Los Angeles, and Hueneme. The funded berths were ready for ships to begin to plug into the grid in early 2014.

**Locomotives and Commercial Harbor Craft.** The Sacramento and South Coast Districts completed the upgrade of 25 locomotives that are operating in the Central Valley and the Los Angeles/Inland Empire trade corridors. In addition, the San Diego District has completed 3 harbor craft upgrades.

## **2017 Report to the Legislature**

*Previously submitted to the Department of Finance as:  
December 2016 Status Report to the Department of Finance*

### **Project Benefits – Years 1 to 5**

When fully implemented, the Program expects projects included in this report will reduce approximately 5 million pounds, or 2,500 tons, of particulate matter (PM 2.5), plus approximately 170 million pounds, or 85,000 tons, of NOx. Emission reductions for projects funded with Year 1 through Year 3 grants are calculated over the life of their grant term (e.g., 2 to 5 years for trucks and 10 years for ships at berth). Emission reductions for the Year 4 and Year 5 grants take into consideration ARB's regulations and include only the portion of the emission reductions that are early or extra to these regulations. Additionally, emission reductions are based on completed projects and estimates for Year 5 projects.

### **Project Status**

The tables on the following pages present the information by trade corridor (Table 1), source category (Table 2), and by grant agreement (Tables 3 through 8), and are based on the September 30, 2016 local agency reports. The number of equipment and emission reductions for Year 5 projects are estimates and will be updated in subsequent reports as equipment becomes operational and projects are completed.

## 2017 Report to the Legislature

*Previously submitted to the Department of Finance as:  
December 2016 Status Report to the Department of Finance*

**TABLE 1 PROJECTS BY TRADE CORRIDOR (Years 1 to 5)**

Trade Corridor (Local Agency)		Award	PM 2.5 (lbs)	NOx (lbs)	Estimated Total Projects <sup>1</sup>
Los Angeles/Inland Empire	South Coast Air Quality Management District	\$507,298,680	2,334,000	87,663,000	5,755 other trucks 1,600 drayage trucks 25 ships at berth 125 cargo handling equipment 21 locomotives 790 TRUs

December 2016 Status Report to the Department of Finance*

**TABLE 3A LOS ANGELES/INLAND EMPIRE TRADE CORRIDOR – South Coast AQMD**

Funding Year/ Category	Project Description	Grant Amount	Emission Reductions (pounds)		Current Project Status
			PM 2.5	NOx	
Year 5					
Other Trucks	Replace old dirty trucks with newer clean models. GMB14-L1/13GML01	\$99,357,188	7,000	4,046,000	District is in the process of signing contracts for approximately 460 eligible trucks and 4 trucks have been scrapped and replaced with much cleaner trucks. District is evaluating applications for 576 trucks from the second solicitation.
Ships at Berth/ Cargo Handling Equipment	Eliminate or reduce emissions from ships at berth, and replace old dirty cargo handling equipment with newer clean models. GMB14-L1	\$14,500,000	19,000	1,774,000	District has completed evaluating applications for 2 ships at berth projects and 200 cargo handling equipment projects, and will begin signing contracts for approximately 75 eligible pieces of equipment in early 2017.
Locomotives	Replace old dirty locomotives with newer clean models. GMB14-L1	\$22,500,000	94,000	2,493,000	District has completed evaluating applications for 11 locomotives and will begin signing contracts for eligible equipment in early 2017.
Transportation Refrigeration Units	Replace old dirty TRUs with newer clean models. GMB14-L1	\$1,500,000	6,000	317,000	District is evaluating applications for 911 pieces of equipment, including 120 zero emission TRUs and 791 electric power plugs.
Year 4					
Other Trucks	Replace old dirty trucks with newer clean models.  13GML01/G11GMLT1	\$81,417,420	180,000	13,407,000	Grant complete. 1,823 old trucks have been scrapped and replaced with much cleaner trucks.
Year 3					
Priority Drayage Trucks	Replace old dirty trucks with newer clean models serving ports and railyards.  G11GMLP1	\$3,302,250	1,000	973,000	Grant complete. 104 old trucks have been scrapped and replaced with much cleaner trucks.

## 2017 Report to the Legislature

December 2016 Status Report to the Department of Finance*

**TABLE 3A (continued) LOS ANGELES/INLAND EMPIRE TRADE CORRIDOR – South Coast AQMD**

Funding Year/ Category	Project Description	Grant Amount	Emission Reductions (pounds)		Current Project Status
			PM 2.5	NOx	
Year 2					
Other Trucks	Retrofit trucks with soot filters and replace old dirty trucks with newer clean models.  G11GMLT1/G08GMLT1	\$90,363,736	488,000	14,522,000	Grant complete. 1,522 old trucks have been scrapped and replaced with much cleaner trucks, including 2 natural gas. 386 trucks have been retrofitted with soot filters. 1 truck stop/distribution center electrification project has been completed.
Ships at Berth	Eliminate or reduce emissions from ships at berth.  G08GMLS1	\$58,641,886	343,000	21,841,000	Grant complete. Installation of shore power equipment for 25 berths (12 at Port of Long Beach, 10 at Port of Los Angeles, 3 at Port of Hueneme) is complete with ships plugging into the grid starting in January 2014.
Locomotives	Replace old dirty locomotives with newer clean models.  G08GMLL1	\$4,635,000	27,000	315,000	Grant complete. 6 locomotives have been repowered with much cleaner engines.
Year 1					
Drayage Trucks	Replace old dirty trucks serving the Ports of Los Angeles and Long Beach with newer clean models.  G07GMLP1	\$6,930,000	66,000	1,104,000	Grant complete. 132 old trucks have been scrapped and replaced with much cleaner natural gas trucks.
	Retrofit trucks with soot filters and replace old dirty trucks with newer clean models serving the rail yards.  G07GMLP2	\$2,625,000	31,000	577,000	Grant complete. 50 old trucks have been scrapped and replaced with much cleaner trucks. 2 trucks have been retrofitted with soot filters.

Year 5					
Other Trucks	Replace old dirty trucks with newer clean models.  GMB14-B1/13GMB01	\$25,672,315	1,000	1,573,000	District is in the process of signing contracts for approximately 230 eligible trucks and 4 trucks have been scrapped and replaced with much cleaner trucks. District is evaluating applications for 96 trucks from the second solicitation.
Ships at Berth/ Cargo Handling Equipment	Eliminate or reduce emissions from ships at berth, and replace old dirty cargo handling equipment with newer clean models.  GMB14-B1	\$5,000,000	7,000	612,000	District has completed evaluating applications for 1 ships at berth project and 1 cargo handling equipment project and will begin signing contracts for eligible equipment in 2017.
Locomotives	Replace old dirty locomotives with newer clean models.  GMB14-B1	\$15,000,000	78,000	1,500,000	District has completed evaluating applications for 8 locomotives and is in the process of signing contracts for eligible equipment.
Transportation Refrigeration Units	Replace old dirty TRUs with newer clean models.  GMB14-B1	\$3,000,000	7,000	226,000	District has completed evaluating applications for 16 electric plugs and is in the process of signing contracts for eligible equipment.
Year 4					
Other Trucks	Replace old dirty trucks with newer clean models.  13GMB01/G11GMBT1	\$9,566,339	17,000	1,637,000	Grant complete. 220 old trucks have been scrapped and replaced with much cleaner trucks, including 6 natural gas.
Year 3					
Priority Drayage Trucks	Replace old dirty trucks with newer clean models serving ports and railyards.  G11GMBP1	\$10,311,000	1,000	2,678,000	Grant complete. 357 old trucks have been scrapped and replaced with much cleaner trucks.

## **II. Proposition 1B: Lower-Emission School Bus Program**

[this page intentionally left blank]

## EXECUTIVE SUMMARY

Since 2000, the Lower-Emission School Bus Program (LESBP) has provided over \$300 million for purchasing new, lower-emitting school buses and for retrofitting school buses with diesel particulate filters. These projects are important steps in reducing children's exposure to the harmful effects of toxic diesel particulate matter emissions. The California Air Resources Board (CARB or Board) administered State funds totaling just over \$100 million to replace 600 of the oldest, most polluting public school buses and retrofit about 3,800 other diesel school buses with CARB-verified pollution control equipment that significantly reduces toxic particulate matter emissions prior to 2006.

Proposition 1B authorized \$200 million in new incentive funding for CARB to reduce air pollution and the related health risk from diesel-fueled school buses through the LESBP. Under the LESBP Guidelines, CARB awards funding to local air districts, and the local air districts then solicit and review applications from school districts and execute, complete, and reimburse contracts to replace or retrofit in-use school buses. The Board approved the current version of the LESBP Guidelines in March 2008 and has allocated and disbursed over \$194 million to 35 local air districts, with \$6 million set aside for State operations.

The deadline for LESBP Proposition 1B funding expenditure was extended twice: first from June 30, 2011, to June 30, 2012, and then, from June 30, 2012, to June 30, 2014, to allow time for remaining funds to be spent on cleaning up California's school bus fleet, thereby protecting children's health from the harmful effects of air pollution.

Unspent LESBP Proposition 1B funds, including accrued interest, that were not committed by an executed contract by June 30, 2012, were subject to transfer to another local air district that demonstrated an ability to fully expend funds by January 1, 2014. Local air districts had until June 30, 2014, to expend all funds and had until November 1, 2014, to enter data and submit final reports. Local air districts have reported executed contracts for 1,042 school bus replacements and 3,555 retrofits, obligating over 99 percent of the available Proposition 1B project funds and have returned less than \$50,000 in unspent funds.

Assembly Bill 110 (Blumenfield, Chapter 20, Statutes of 2013) authorized nearly \$700,000 of LESBP Proposition 1B funds from the \$6 million set aside for State operations, and Senate Bill 96 (Committee on Budget and Fiscal Review, Chapter 356, Statutes of 2013) directs the use of those funds in the LESBP. These funds have been encumbered and disbursed to the San Joaquin Valley Air Pollution Control District and spent on 40 retrofit projects statewide.

The report, which is required by Government Code section 16724.4, is available electronically at: <http://www.arb.ca.gov/mandrpts/mandrpts.htm>. To order a hard copy, please contact Ms. Lisa Jennings at (916) 322-6913.
