

**SCIENTIFIC REVIEW PANEL ON TOXIC AIR CONTAMINANTS  
NOTICE OF PUBLIC MEETING**

The Scientific Review Panel on Toxic Air Contaminants (Panel), established pursuant to California Health and Safety Code section 39670, will hold a public meeting at the following time and place:

DATE: June 28, 2019  
TIME: 9:30 AM  
LOCATION: Coastal Hearing Room, Second Floor  
California Environmental Protection Agency  
1001 I Street, Sacramento, CA 95814  
INFORMATION: (916) 322-8278

**This meeting will be webcast:** The URL for the webcast (not active until the day and time of the meeting) is <https://video.calepa.ca.gov/>

— AGENDA —

1. **Welcome and Introductions**
2. **Review of “Toluene Reference Exposure Levels – Technical Support Document for the Derivation of Noncancer Reference Exposure Levels – Appendix D1” – Scientific Review Panel Review Draft – May 2019**

*Office of Environmental Health Hazard Assessment (OEHHA) staff will present a draft document summarizing the toxicity and derivation of proposed acute, 8-hour, and chronic reference exposure levels (RELs) for toluene. RELs are airborne concentrations of a chemical that are not anticipated to result in adverse non-cancer health effects for specified exposure durations in the general population, including sensitive subpopulations.*

*OEHHA is required to develop guidelines for conducting health risk assessments under the Air Toxics Hot Spots Program (Health and Safety Code Section 44360 (b)(2)). In response to this requirement, OEHHA adopted in 2008 a Technical Support Document that describes the derivation of acute, 8 hour and chronic non-cancer RELs. This guideline has been used to develop the proposed RELs for toluene. After the Panel’s review the document will be finalized and will be added to Appendix D of the Technical Support Document.*

3. **Informational Update on Ambient Air Monitoring in the Implementation of Assembly Bill 617.**

*In response to Assembly Bill (AB) 617 (Chapter 136, Statutes of 2017), the California Air Resources Board (CARB) established the Community Air Protection Program to reduce exposure in communities most impacted by air pollution. The Panel is one of several groups being consulted about the implementation of the program. CARB staff will summarize the air monitoring being planned in the first year in the initial ten communities. Background information about AB 617 is*

available at: <https://ww2.arb.ca.gov/our-work/programs/community-air-protection-program-ab617>

**4. Informational Update on AB 2588 Air Toxics Hot Spots Program.**

*The AB 2588 Toxics Hot Spots Emission Inventory Criteria and Guidelines Regulation was last updated in 2007. Given updates to the OEHHA risk assessment guidelines and new legislation (AB 197 and AB 617), amendments are necessary to update the Regulation including changes to the chemical list, test and modeling methods, and references. In this presentation, CARB staff will discuss an overview of the Regulation and its relation to other work done by the Panel, a summary of the amendments being considered, and the process and timeline for the Panel's review later this year of the proposed updates to the chemical list appendices.*

**5. Consideration of administrative matters.**

*The Panel may discuss various administrative matters and scheduling of future meetings.*

THE AGENDA ITEMS LISTED ABOVE MAY BE CONSIDERED IN A DIFFERENT ORDER AT THE MEETING

**INFORMATION ABOUT  
THE SCIENTIFIC REVIEW PANEL**

The Scientific Review Panel (Panel) is charged with evaluating the risk assessments of substances proposed for identification as toxic air contaminants by the California Air Resources Board (CARB), the Office of Environmental Health Hazard Assessment (OEHHA) and the Department of Pesticide Regulation (DPR), and the review of risk assessment guidelines prepared by OEHHA. In carrying out this responsibility, the Panel reviews the exposure and health assessment reports, and the underlying scientific data on which the reports are based, which are prepared by CARB, DPR, and OEHHA pursuant to Health and Safety Code sections 39660-39661, 39669.5 and 44360, and Food and Agricultural Code sections 14022-14023. These reports are prepared for the purpose of determining whether a substance or pesticide should be identified as a toxic air contaminant, or as guidelines to be used in preparing health risk assessments.

The Panel welcomes written comments or submissions from all parties regarding reports that are under review, but does not accept oral comments from the public at its meetings (see for example Health & Safety Code section 39661 subd.(b)). Although written comments are accepted up to the day of a scheduled meeting, to assure adequate review the Panel requests that written comments and information be submitted to the Panel Liaison (contact information below) as early as possible prior to a scheduled meeting.

Transcripts to previously held Panel meetings and other information about the Panel can be found through the ARB web site at: <http://www.arb.ca.gov/srp/srp.htm>.

## FOR FURTHER INFORMATION

For further information regarding the content of the meeting agenda, please contact:  
Jim Behrmann, Panel Liaison, California Air Resources Board, 1001 I Street, 2nd Floor, P.O. Box  
2815, Sacramento, CA 95812; Telephone: (916) 322-8278; Fax (916) 322-4357; E-mail:  
[Jim.Behrmann@arb.ca.gov](mailto:Jim.Behrmann@arb.ca.gov).

If you require a special accommodation or need this document in an alternate format or language,  
please contact Reid Brown at (916) 323-1522 ([Reid.Brown@arb.ca.gov](mailto:Reid.Brown@arb.ca.gov)) as soon as possible, but no  
later than 10 business days before the scheduled meeting.

TTY/TDD/Speech to Speech users may dial 711 for the California Relay Service.
