

**SCIENTIFIC REVIEW PANEL ON TOXIC AIR CONTAMINANTS
NOTICE OF PUBLIC MEETING**

The Scientific Review Panel on Toxic Air Contaminants (Panel), established pursuant to California Health and Safety Code section 39670, will hold a public meeting at the following time and place:

DATE: June 24, 2016
TIME: 10:00 a.m., PDT
LOCATION: Klamath Training Room, Second Floor
California Environmental Protection Agency
1001 I Street, Sacramento, CA 95814 (916) 323-8711

— AGENDA —

1. Review of "Perchloroethylene Inhalation Cancer Unit Risk Factor" – SRP Review Draft (May 2016)

The Office of Environmental Health Hazard Assessment (OEHHA) will present to the Panel a document summarizing the derivation of a revised inhalation cancer unit risk factor for perchloroethylene (tetrachloroethylene). Unit Risk Factors (URF) are used to estimate lifetime cancer risks associated with inhalation exposure to a carcinogen. OEHHA is required to develop guidelines for conducting health risk assessments under the Air Toxics Hot Spots Program (Health and Safety Code Section 44360(b)(2)). To fulfill this requirement, OEHHA develops new, and revises existing, URFs for many air pollutants. In this document the existing inhalation URF for perchloroethylene, first adopted in 1992, was revised using the most recent "Air Toxics Hot Spots Program Technical Support Document for Cancer Potency Factors," finalized by OEHHA in 2009. After review by the Panel and adoption by OEHHA, the document will be summarized and added to the existing perchloroethylene summary in Appendix B of the Technical Support Document for Cancer Potency Factors.

A link to the SRP draft version of the report being reviewed will be posted at the OEHHA Air Toxics Hot Spots webpage at:

2. Consideration of administrative matters.

The Panel may discuss various administrative matters and scheduling of future meetings.

THE AGENDA ITEMS LISTED ABOVE MAY BE CONSIDERED IN A DIFFERENT ORDER AT THE MEETING

INFORMATION ABOUT THE SCIENTIFIC REVIEW PANEL

The Scientific Review Panel (Panel) is charged with evaluating the risk assessments of substances proposed for identification as toxic air contaminants by the Air Resources Board (ARB), the Office of Environmental Health Hazard Assessment (OEHHA) and the Department of Pesticide Regulation (DPR), and the review of guidelines prepared by OEHHA. In carrying out this responsibility, the Panel reviews the exposure and health assessment reports and underlying scientific data on which the reports are based, which are prepared by the ARB, DPR, and OEHHA pursuant to Health and Safety Code sections 39660-39661, 39669.5 and 44360, and Food and Agricultural Code sections 14022-14023. These reports are prepared for the purpose of determining whether a substance or pesticide should be identified as a toxic air contaminant, or as guidelines to be used in preparing health risk assessments.

The Panel welcomes written comments or submissions from all parties regarding a report, but does not accept oral comments from the public at its meetings. Although written comments are accepted up to the day of a scheduled meeting, to assure adequate review the Panel requests that written comments and information be submitted to the Panel Liaison (contact information below).

Transcripts to previously held Panel meetings and other information about the Panel can be found through the ARB web site at: <http://www.arb.ca.gov/srp/srp.htm>.
