

**SCIENTIFIC REVIEW PANEL ON TOXIC AIR CONTAMINANTS
NOTICE OF PUBLIC MEETING**

—TELECONFERENCE MEETING—

(The meeting will be conducted by teleconference and the public may attend at any of the locations listed below.)

The Scientific Review Panel on Toxic Air Contaminants (Panel), established pursuant to California Health and Safety Code section 39670, will hold a public meeting at the following time and place:

DATE: August 20, 2015
TIME: 10:00 a.m., PDT
LOCATIONS: (See below for addresses)
INFORMATION: (916) 323-8711

— AGENDA —

1. Review of “Toluene Diisocyanate Reference Exposure Levels” – SRP Draft (May 2015) and “Methylene Diphenyl Diisocyanate Reference Exposure Levels” – SRP Draft (May 2015)

From its previous meeting in February 2015, the Panel will continue reviewing the proposed reference exposure levels (REs) for toluene diisocyanate (TDI) and methylene diphenyl diisocyanate (MDI). These two documents summarize the toxicity and the derivation of the proposed acute, 8-hour, and chronic REs. REs are airborne concentrations of a chemical that are not anticipated to result in adverse noncancer health effects for specified exposure durations in the general population, including sensitive subpopulations.

The Office of Environmental Health Hazard Assessment (OEHHA) is required to develop guidelines for conducting health risk assessments under the Air Toxics Hot Spots Program (Health and Safety Code Section 44360 (b)(2)). In response to this statutory requirement, OEHHA adopted in 2008 a Technical Support Document that describes the derivation of acute, 8 hour and chronic noncancer REs. This guideline has been used to develop the REs for both TDI and MDI. After the Panel’s review the two documents will be finalized and will be added to Appendix D of the Technical Support Document.

2. Consideration of administrative matters.

The Panel may discuss various administrative matters and scheduling of future meetings.

THE AGENDA ITEMS LISTED ABOVE MAY BE CONSIDERED IN A DIFFERENT ORDER AT THE MEETING

**INFORMATION ABOUT
THE SCIENTIFIC REVIEW PANEL**

The Scientific Review Panel (Panel) is charged with evaluating the risk assessments of substances proposed for identification as toxic air contaminants by the Air Resources Board (ARB), the Office of Environmental Health Hazard Assessment (OEHHA) and the Department of Pesticide Regulation (DPR), and the review of guidelines prepared by OEHHA. In carrying out this responsibility, the Panel reviews the exposure and health assessment reports and underlying scientific data on which the reports are based, which are prepared by the ARB, DPR, and OEHHA pursuant to Health and Safety Code sections 39660-39661, 39669.5 and 44360, and Food and Agricultural Code sections 14022-14023. These reports are prepared for the purpose of determining whether a substance or pesticide should be identified as a toxic air contaminant, or as guidelines to be used in preparing health risk assessments.

The Panel welcomes written comments or submissions from all parties regarding a report, but does not accept oral comments from the public at its meetings. Although written comments are accepted up to the day of a scheduled meeting, to assure adequate review the Panel requests that written comments and information be submitted to the Panel Liaison (contact information below), preferably no later than two weeks prior to a scheduled meeting.

Transcripts to previously held Panel meetings and other information about the Panel can be found through the ARB web site at: <http://www.arb.ca.gov/srp/srp.htm>.
