— AGENDA —

1. Update to the Panel on Assembly Bill 617.

Assembly Bill 617, approved by the Governor in 2017, requires the California Air Resources Board (CARB) to develop a uniform statewide system of annual reporting of emissions of criteria air pollutants and toxic air contaminants; a monitoring plan; and a statewide strategy to reduce emissions of toxic air contaminants and criteria pollutants in communities affected by a high cumulative exposure burden. The monitoring plan and strategy are to be developed in consultation with the Panel, air districts, the Office of Environmental Health Hazard Assessment, environmental justice organizations, affected industries, and other interested stakeholders. CARB staff will provide the Panel with an update on the implementation of AB 617.

2. Review of the draft report “Draft Evaluation of Chlorpyrifos as a Toxic Air Contaminant: Risk Characterization of Spray Drift, Dietary, and Aggregate Exposures to Residential Bystanders” (December 11, 2017)

Department of Pesticide Regulation (DPR) staff will present their draft report proposing to identify and list chlorpyrifos as a toxic air contaminant pursuant to Food and Agricultural Code sections 14022-14023. Chlorpyrifos is a chlorinated organophosphorus ester used as an insecticide, acaricide, and miticide. The draft report is available at the following DPR web page under the Risk Assessment Documents tab:

INFORMATION ABOUT THE SCIENTIFIC REVIEW PANEL

The Scientific Review Panel (Panel) is charged with evaluating the risk assessments of substances proposed for identification as toxic air contaminants by the California Air Resources Board (CARB), the Office of Environmental Health Hazard Assessment (OEHHA) and the Department of Pesticide Regulation (DPR), and the review of guidelines prepared by OEHHA. In carrying out this responsibility, the Panel reviews the exposure and health assessment reports, and the underlying scientific data on which the reports are based, which are prepared by the CARB, DPR, and OEHHA pursuant to Health and Safety Code sections 39660-39661, 39669.5 and 44360, and Food and Agricultural Code sections 14022-14023. These reports are prepared for the purpose of determining whether a substance or pesticide should be identified as a toxic air contaminant, or as guidelines to be used in preparing health risk assessments.

The Panel welcomes written comments or submissions from all parties regarding reports that are under review, but does not accept oral comments from the public at its meetings. Although written comments are accepted up to the day of a scheduled meeting, to assure adequate review the Panel requests that written comments and information be submitted to the Panel Liaison (contact information below), preferably no later than two weeks prior to a scheduled meeting.

Transcripts to previously held Panel meetings and other information about the Panel can be found through the ARB web site at: <http://www.arb.ca.gov/srp/srp.htm>.
