

# Air Toxics Regulatory Process and Community Participation

April 27, 2021

# Purpose of Listening Session

- Promote understanding of the regulatory process for air toxics
- Tell us your concerns about the regulatory process
- Tell us how CARB can help!

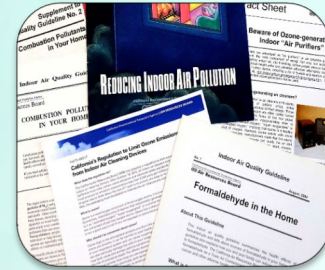

# How do we identify what air toxic sources need to be controlled?

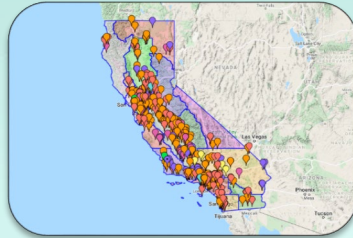

Community  
Input

Air Monitoring

Research Studies

Emissions Inventory  
of Air Toxics  
Sources

Emission Control  
Technologies

# Polling Question

What community do you live in?

What sources of air toxics are of greatest concern for your communities?

# Tools for Reducing Emissions

- Airborne Toxic Control Measures (ATCM)
- District Rules
- Enforcement Actions
- Guidance Documents
- Incentives
- Land Use Planning
- Suggested Control Measures

# *We need your participation throughout the regulatory process!*

Review emission sources

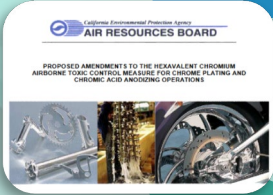

Prioritize control options

Working group meetings

## CARB staff draft report on proposed ATCM

## Public meetings and workshops

## CARB's Board considers to adopt proposed ATCM

## ATCM enforced by CARB or local air districts

# We Want to Hear From You!

- What can we do better to facilitate your participation in the regulatory development process?
- How should we prioritize emission reduction strategies?
- What do you want to see in upcoming regulations?
- What are the best ways we can share information about our regulations and other actions with you?

# Who does what at CARB?

Projects	Division
Statewide air toxics and freight regulations	Transportation & Toxics Division (TTD)
Air toxics air monitoring	Monitoring & Laboratory Division (MLD)
Air toxics inventory	Air Quality Planning & Science Division (AQPSD)
Mobile source regulations	Mobile Sources Control Division (MSCD)
Air toxics research	Research Division (RD)
Enforcement of mobile air toxics regulations	Enforcement Division (ED)
Community air protection program	Office of Community Air Protection (OCAP)
Environmental justice	Environmental Justice (EJ)
