

**State of California
AIR RESOURCES BOARD**

Executive Order G-70-124M

**Phase I Vapor Recovery Systems Installed
on Gasoline Bulk Plants**

WHEREAS, the Air Resources Board ("Board"), pursuant to California Health and Safety Code sections 39600, 39601, and 41954, has adopted Title 17 California Code of Regulations section 94012, which provides that gasoline vapor recovery systems at bulk plants shall be certified in accordance with the Board's "Certification and Test Procedures for Vapor Recovery Systems at Gasoline Bulk Plants" (CP-202) adopted April 12, 1996, as last amended March 17, 1999 (the "Certification and Test Procedures");

WHEREAS, the companies listed in Exhibit 1 (attached) have applied for certification of their gasoline bulk plant vapor recovery systems (the Systems);

WHEREAS, Section 7 of the Certification and Test Procedures provides that the Executive Officer shall issue an order of certification if he or she determines that a vapor recovery system conforms to all of the requirements set forth in paragraphs 1 through 7; and

WHEREAS, the Systems listed in Exhibit 1 have been evaluated pursuant to the Certification and Test Procedures;

WHEREAS, I, Michael P. Kenny, Air Resources Board Executive Officer, find that the Systems listed in Exhibit 1 conform with all of the requirements set forth in paragraphs 1 through 7 of the Certification and Test Procedures.

NOW, THEREFORE, IT IS ORDERED that the Systems listed in Exhibit I are hereby certified to meet the applicable certification performance standards for Phase I vapor recovery subject to any Special Conditions or Limitations noted in Exhibit 1.

BE IT FURTHER ORDERED that compliance with the applicable certification requirements and rules and regulations of the Division of Measurement Standards of the Department of Food and Agriculture, the Division of Occupational Safety and Health of the Department of Industrial Relations, and the the State Fire Marshal is made a condition of this certification.

BE IT FURTHER ORDERED that compliance with the rules and regulations of the local air pollution control district with jurisdiction over the location of the installed system, shall be made a condition of this certification.

BE IT FURTHER ORDERED that any alteration in the equipment, parts, design or operation of the Systems certified is prohibited, and deemed inconsistent with this certification, unless the alteration has been approved by the Air Resources Board Executive Officer or his or her designee.

IT IS FURTHER ORDERED this Executive Order shall supersede Executive Order G-70-124L dated August 24, 1995.

Executed this 12 day of October, 1999, at Sacramento, California.

Michael P. Kenny
Executive Officer
