DESCRIPTION

I smell like gas and rotten eggs on Mohawk all the time. For the past like 5 months I have noticed it. Sometimes it smells all the way down by where valley Baptist Church is. I also have been feeling a lot of the symptoms for at least a few months. I've had weird headaches and dizziness, that ain't usual for me. When I got home they didn't want to let me in my house until I told them where I lived and then they let me in. I don't feel it today, but those symptoms have been around for the past few weeks.

ADDRESS

Creekside apt
