Subject: Company Statement – California Sustainability Disclosures (SB 253 & 261)

American Sugar Refining Inc., and its subsidiaries and affiliates, C&H Sugar Co. and Domino Foods, Inc. (together, the "Company"), disclose their comprehensive corporate greenhouse gas emissions information in the ASR Group® Sustainability Reports.

The Company endeavors to release Sustainability Reports annually. The Sustainability Report does the following: (1) presents the Company's corporate greenhouse gas inventory, prepared according to internationally recognized standards; (2) outlines the governance programs the Company established to support third-party verification of its carbon modeling and broader program precision; (3) discloses required greenhouse gas emissions across several global regions; (4) provides transparency on the Company's progress in various areas; and (5) reflects the Company's best available data at the time of publication. This public disclosure is updated as new reporting periods are completed.

The Company makes its current and historical Sustainability Reports available on its corporate website (www.ASR-Group.com).

The Company provides this statement in connection with California's climate disclosure requirements, including the Climate Corporate Data Accountability Act (SB 253) and the Climate-Related Financial Risk Act (SB 261). The Sustainability Reports identified above provide publicly available greenhouse gas disclosures relevant to SB 253. They also discuss climate-related transition and physical risks through the Company's climate impact study and double materiality study, providing information relevant to SB 261.
